HTR - Waste and Recycling

ERC Scrutiny Committee - 6th September 2021
Ashley Collins, Senior Manager, Waste and Recycling

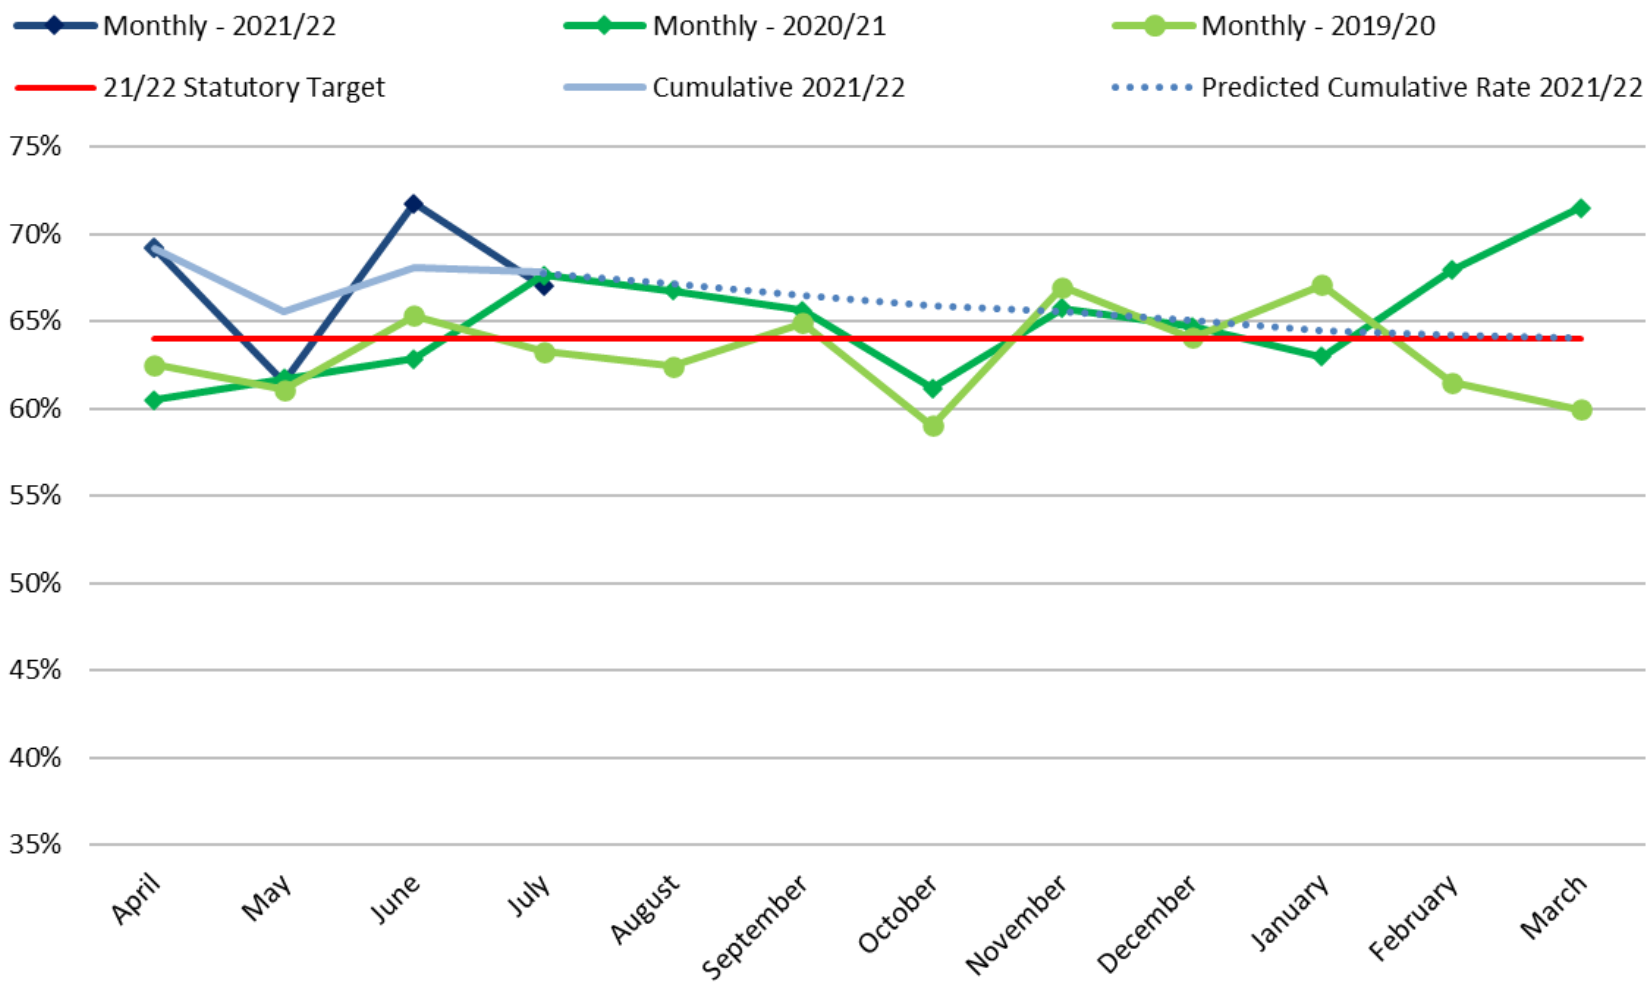
Contents

- Introduction
- Welsh Government Statutory Recycling Targets
- Monthly recycling rate year on year including projection
- Monthly Summary
- Contribution from each service to tonnage collected
- Residual waste destination by tonnage
- Monthly proportion of food, recycling and residual through kerbside
- Monthly tonnage of garden waste from kerbside and HWRCs
- Commercial waste and recycling tonnages
- Household Waste Recycling Centres
- Community Recycling (bring) Sites
- Questions

WG Statutory Recycling Targets

- Reported to NRW through WasteDataFlow
- SRT is currently 64% - technically achieved in 2019/20, but reported as 63% due to a reporting error.
- 65% achieved in 2020/21 – to be confirmed by NRW
- Next target 2024/25 – 70%
- WG shift to Circular Economy – more emphasis on carbon metrics

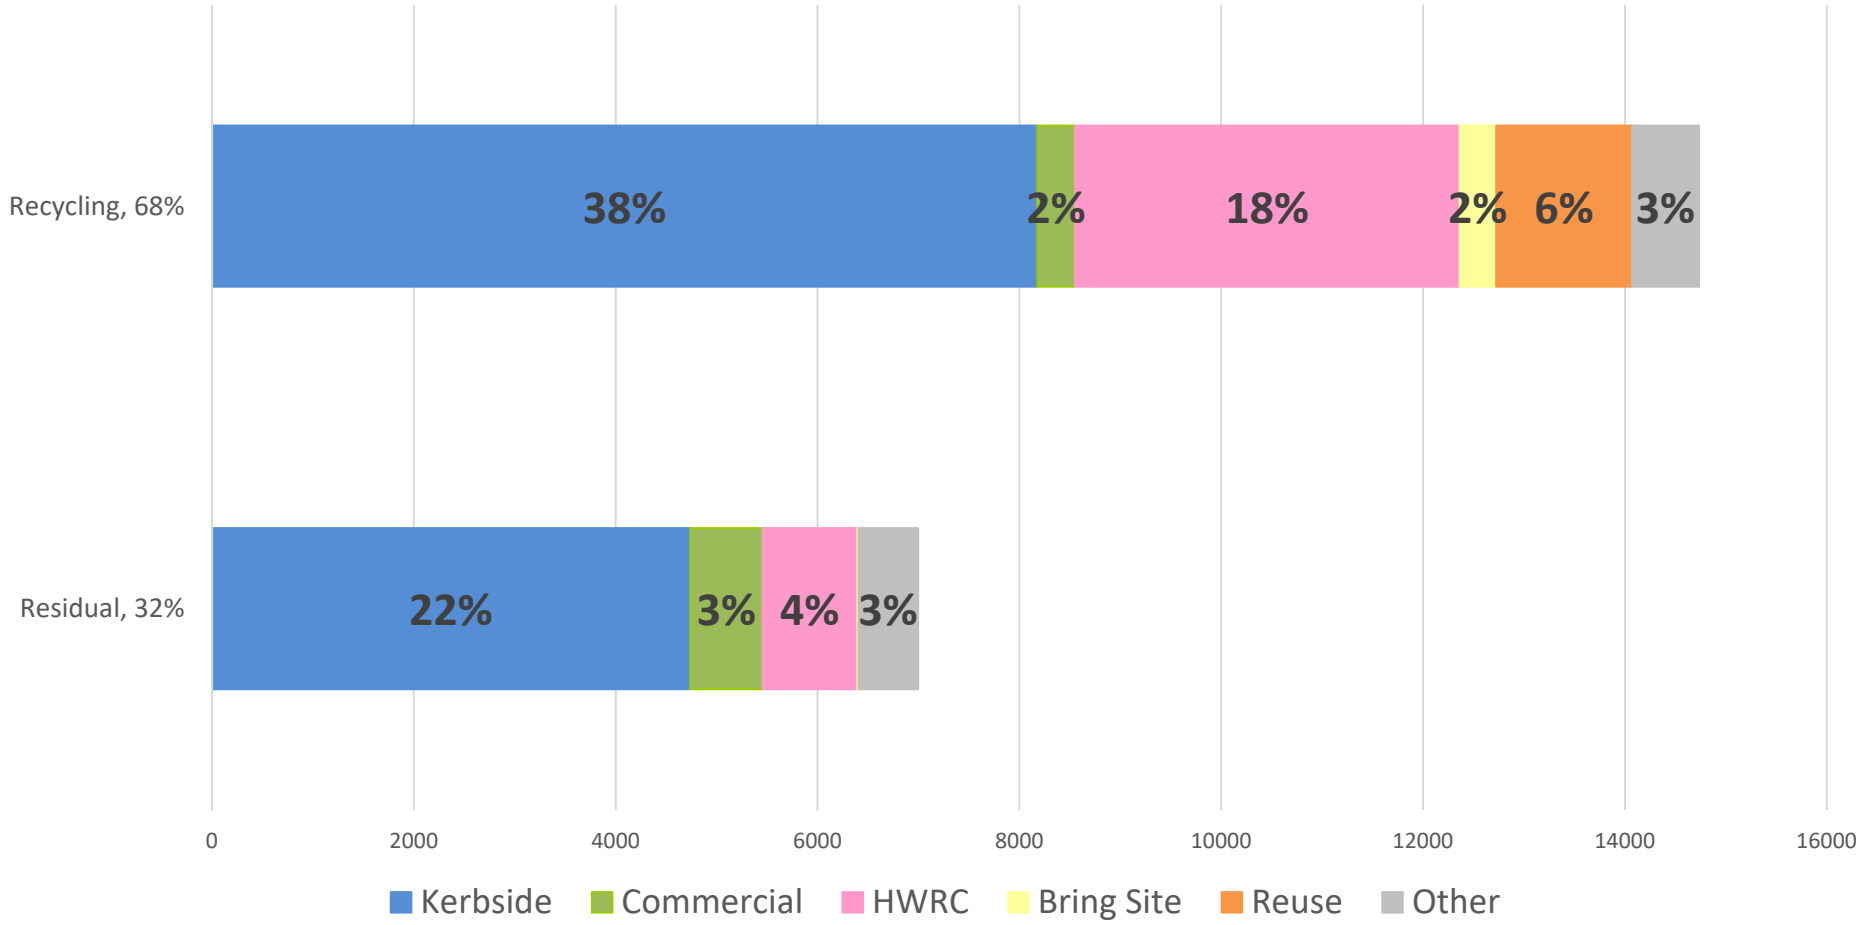
Monthly recycling rate year-on-year, inc. cumulative rate for 2021/22



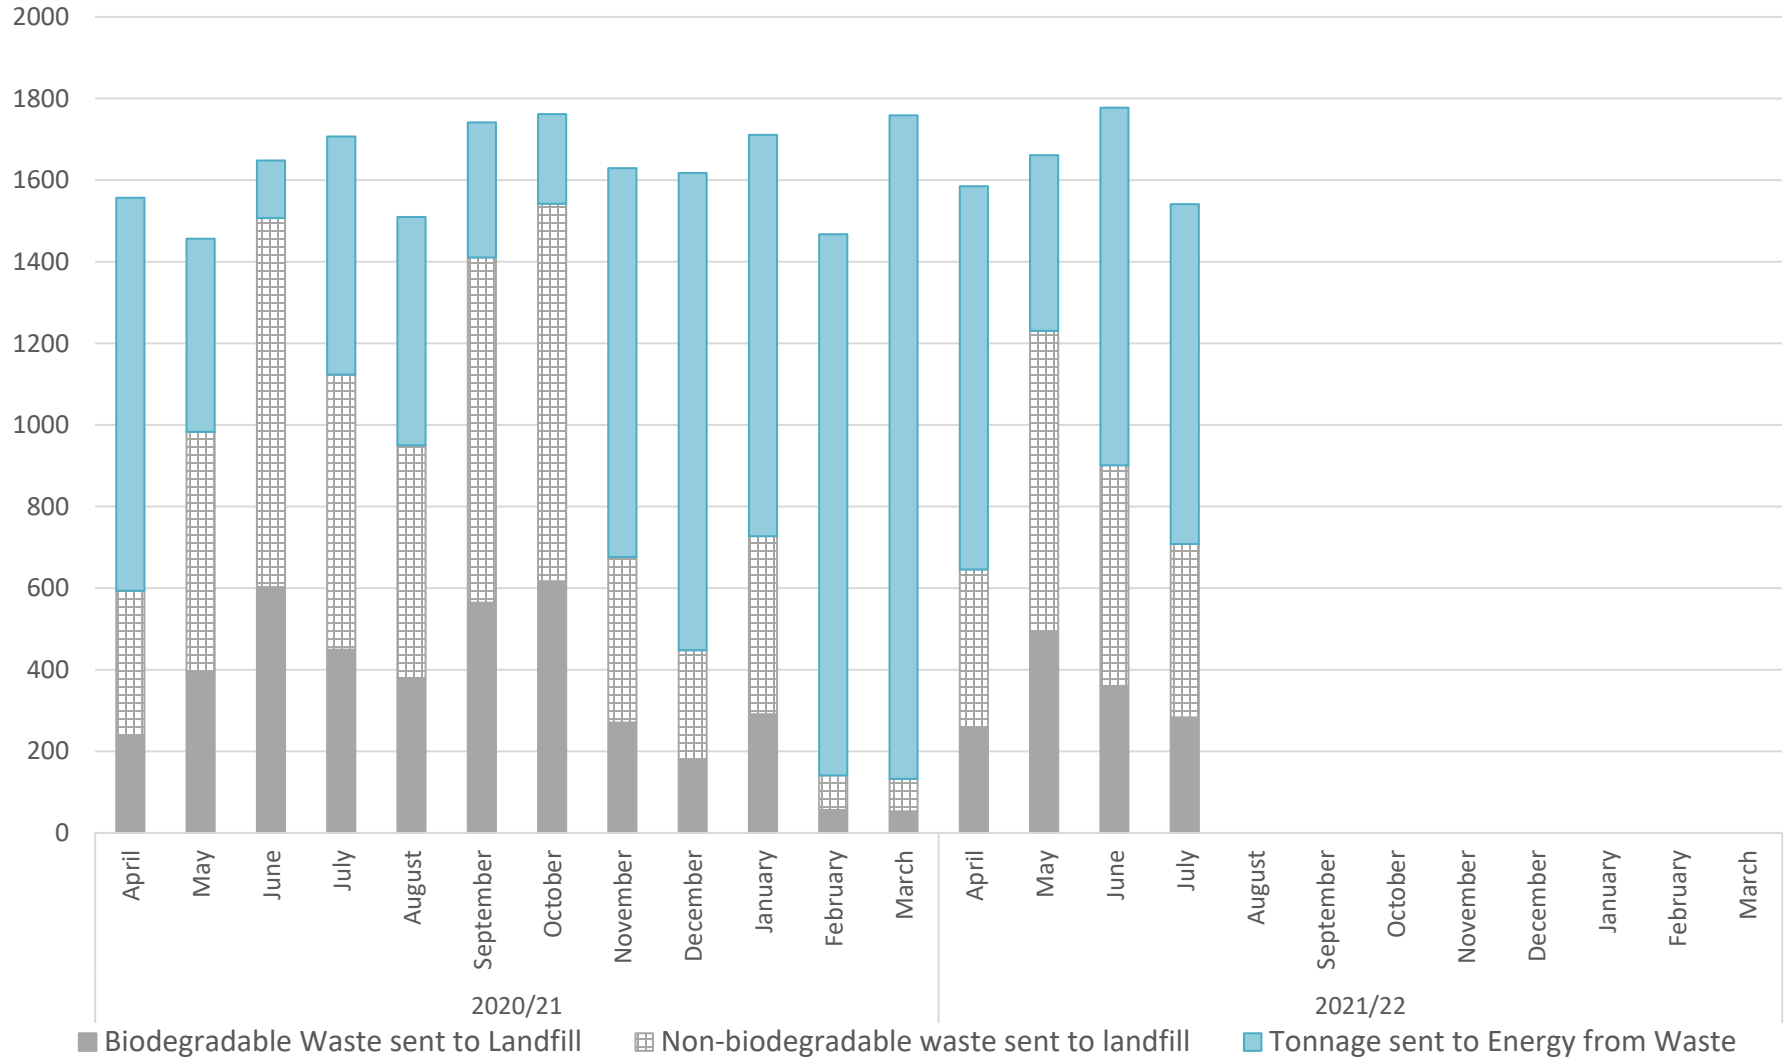
Monthly Summary

July	Current Month	Cumulative Total for 2021/22	*Estimated Final Cumulative Total for*
Waste Collected, not recycled *(tonnes)*	**1686**	**6997**	***21165***
Waste Recycled *(tonnes)*	**3423**	**14734**	***37771***
Recycling Rate *(%)*	**67.00%**	**67.80%**	***64.09%***
Performance compared to statutory recycling target, 64%	**3.00%**	**3.80%**	***0.09%***
Potential SRT fine for 2021/22 *based on current performance*	**-**	**-**	**-**

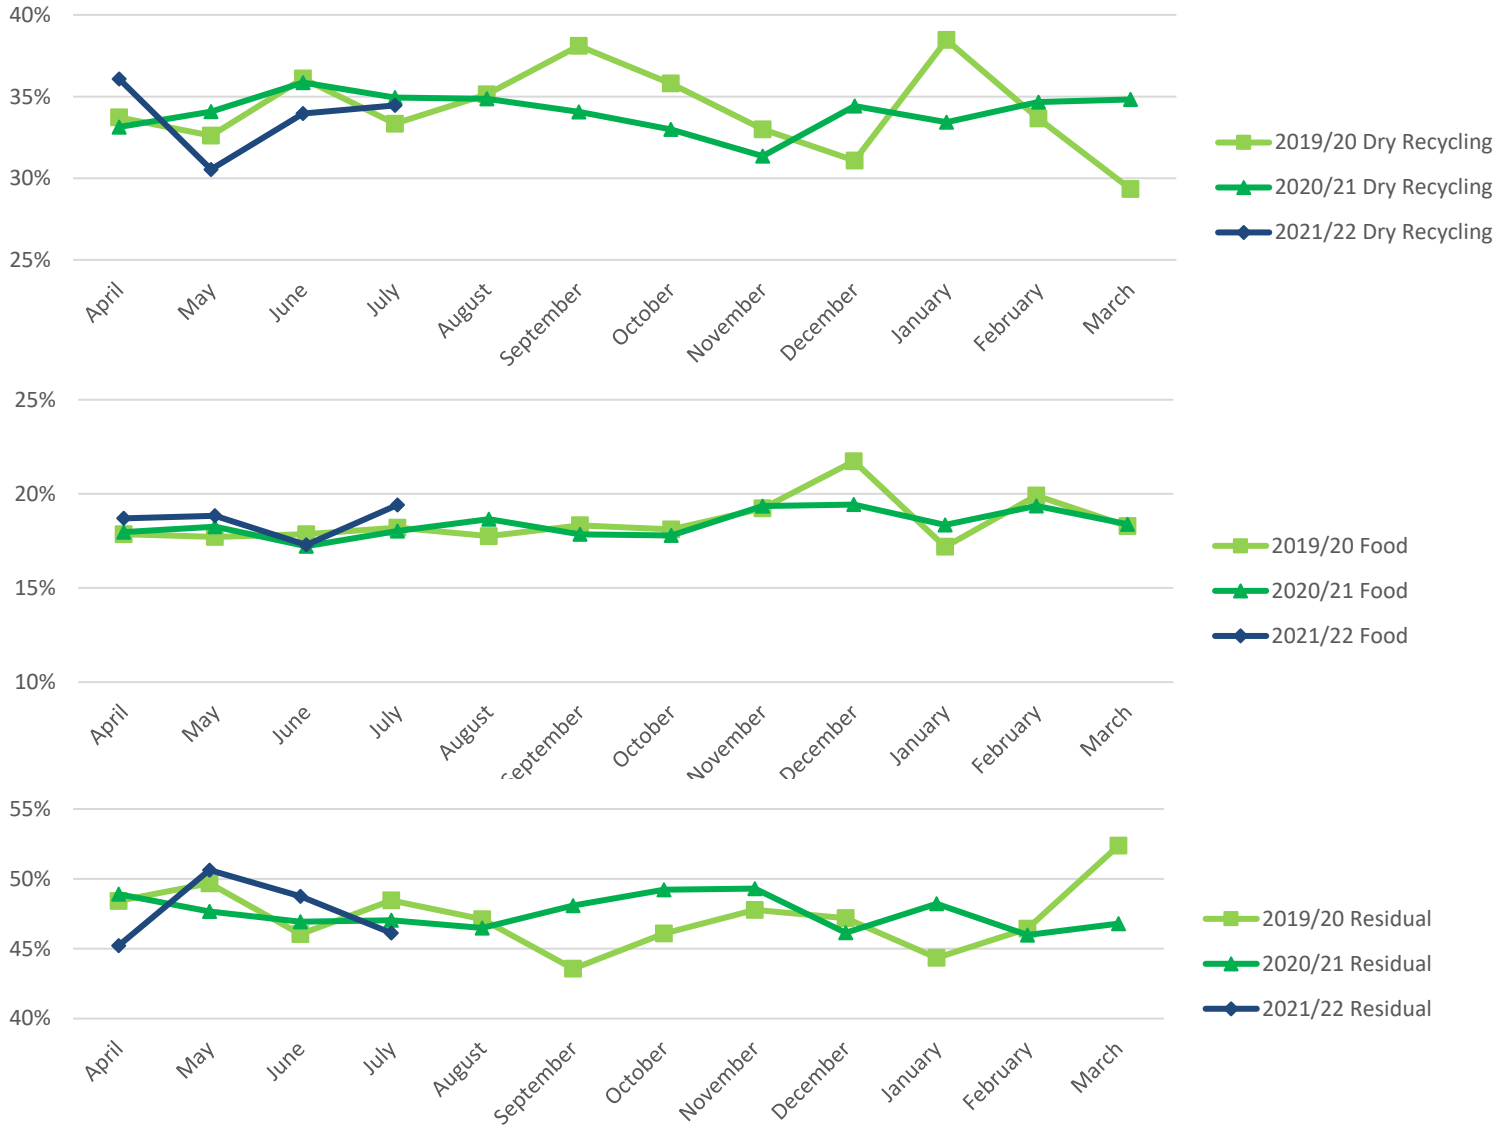
Percentage contribution from each service to overall collected tonnage (April to July 2021)



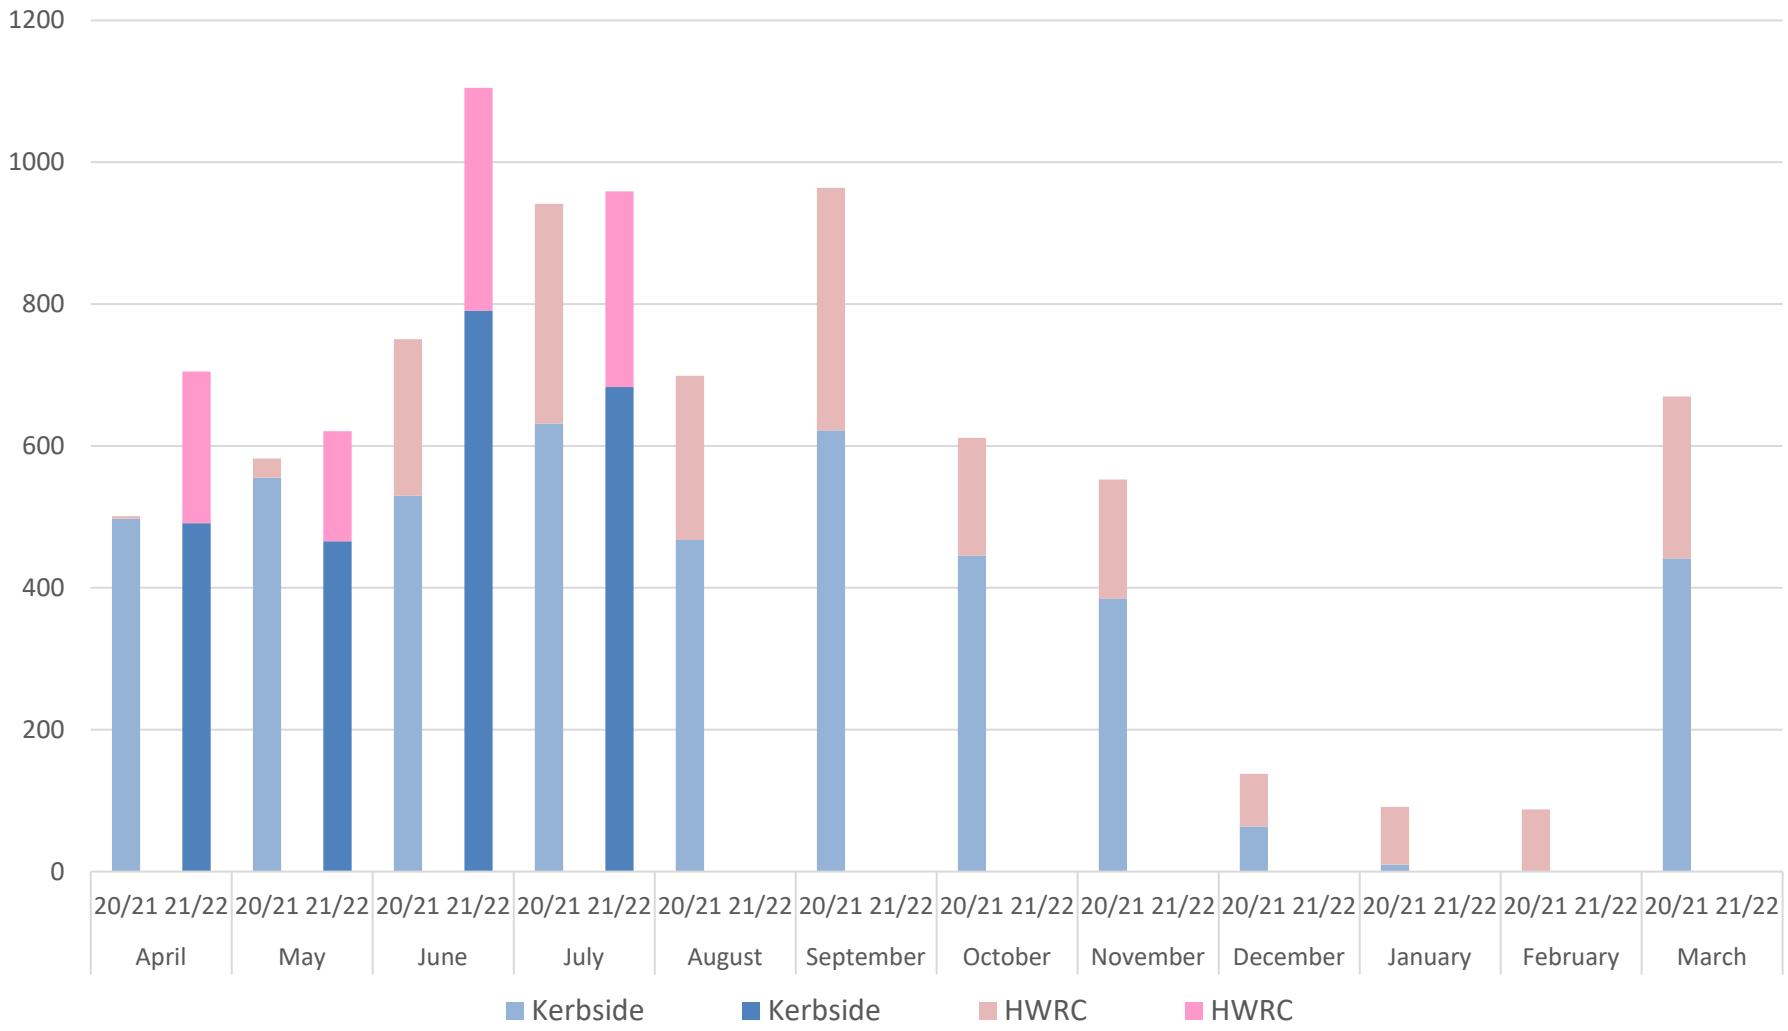
Monthly tonnage of residual waste by destination (EfW and Landfill)



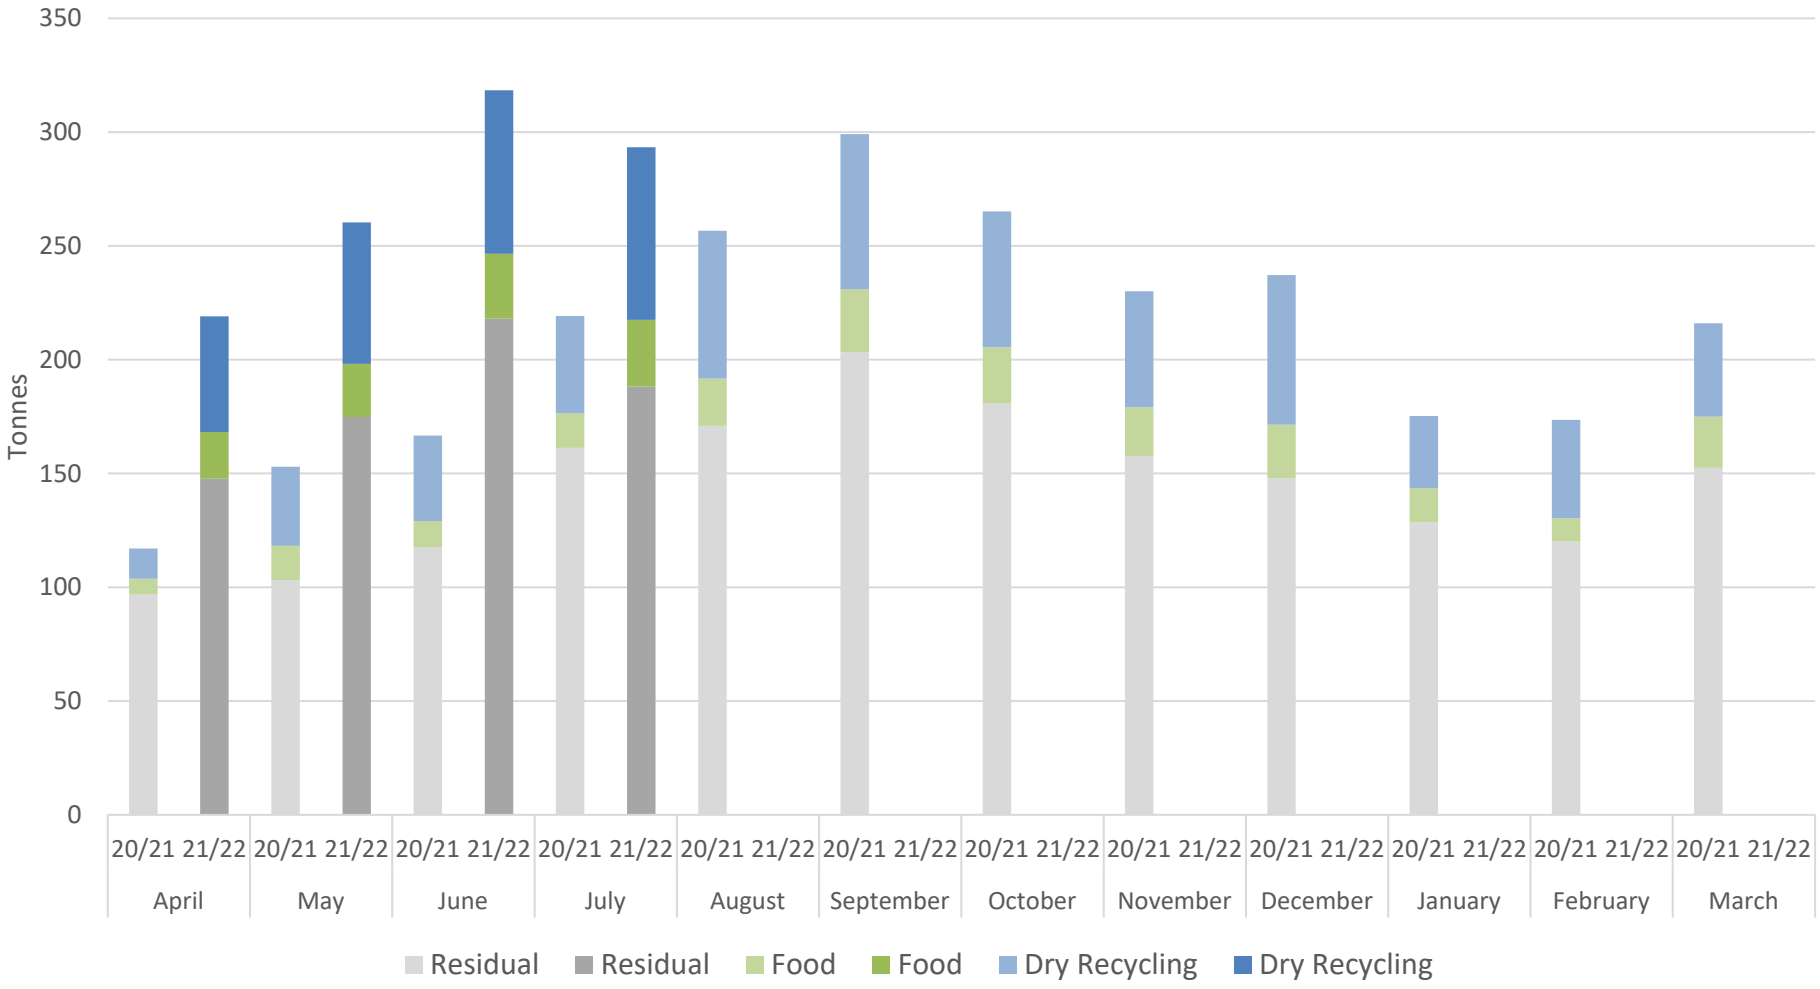
Monthly proportion of food, dry recycling and residual waste via kerbside



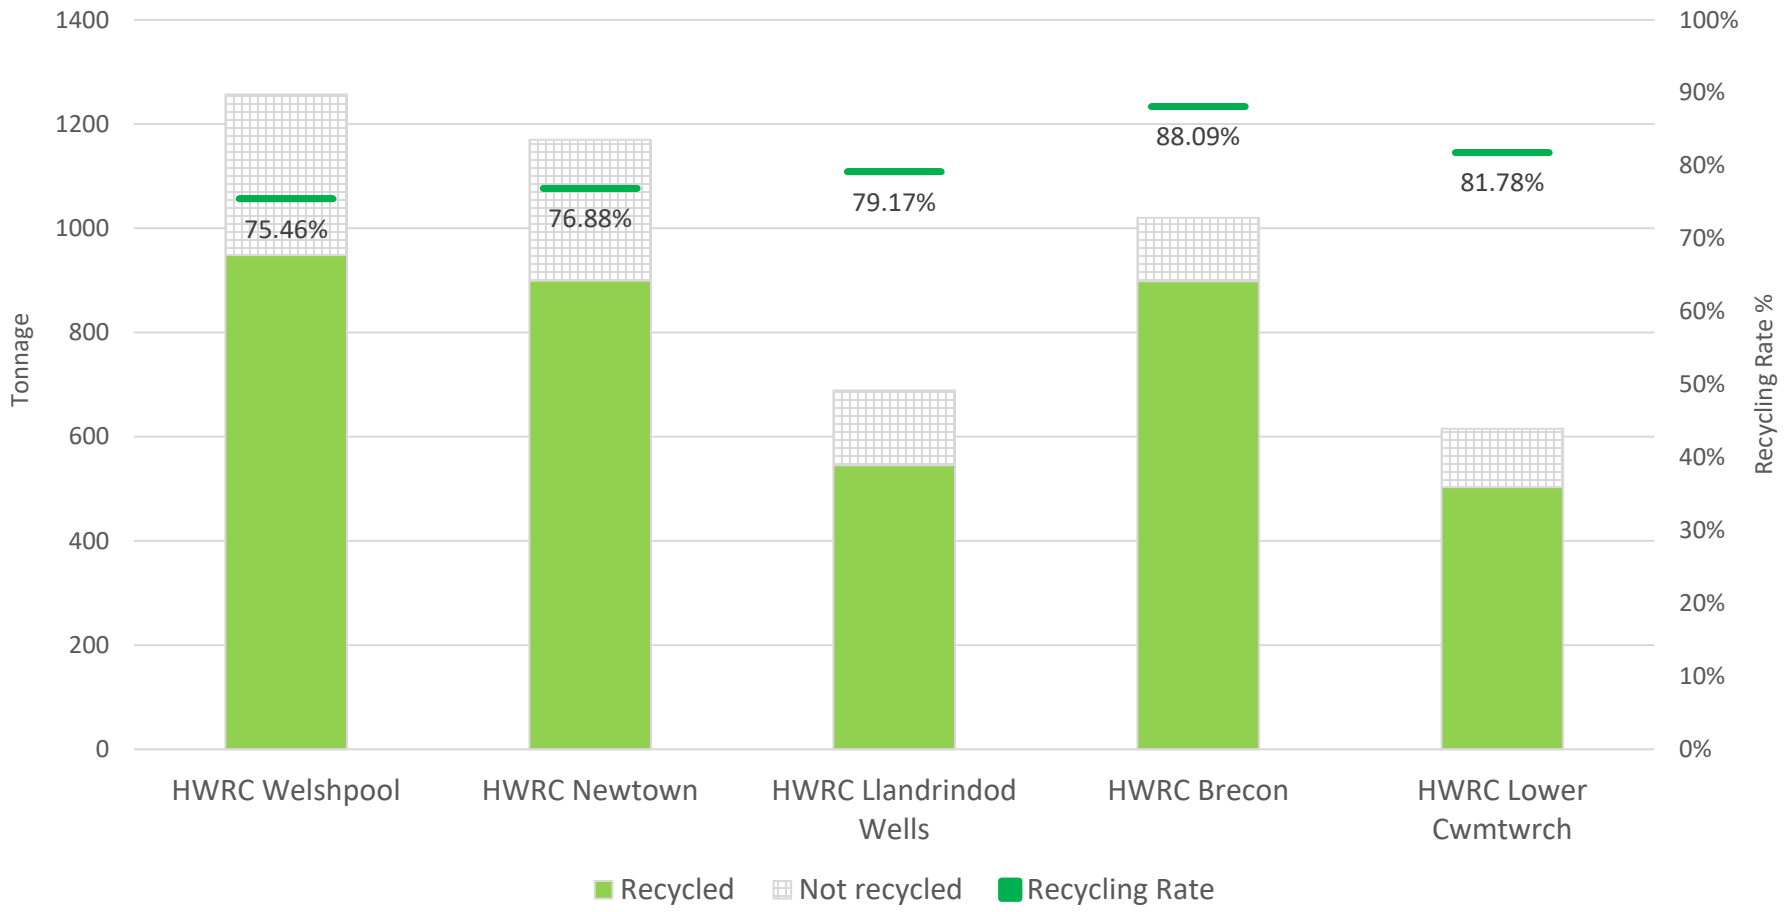
Monthly tonnage of garden waste by source (kerbside and HWRC)



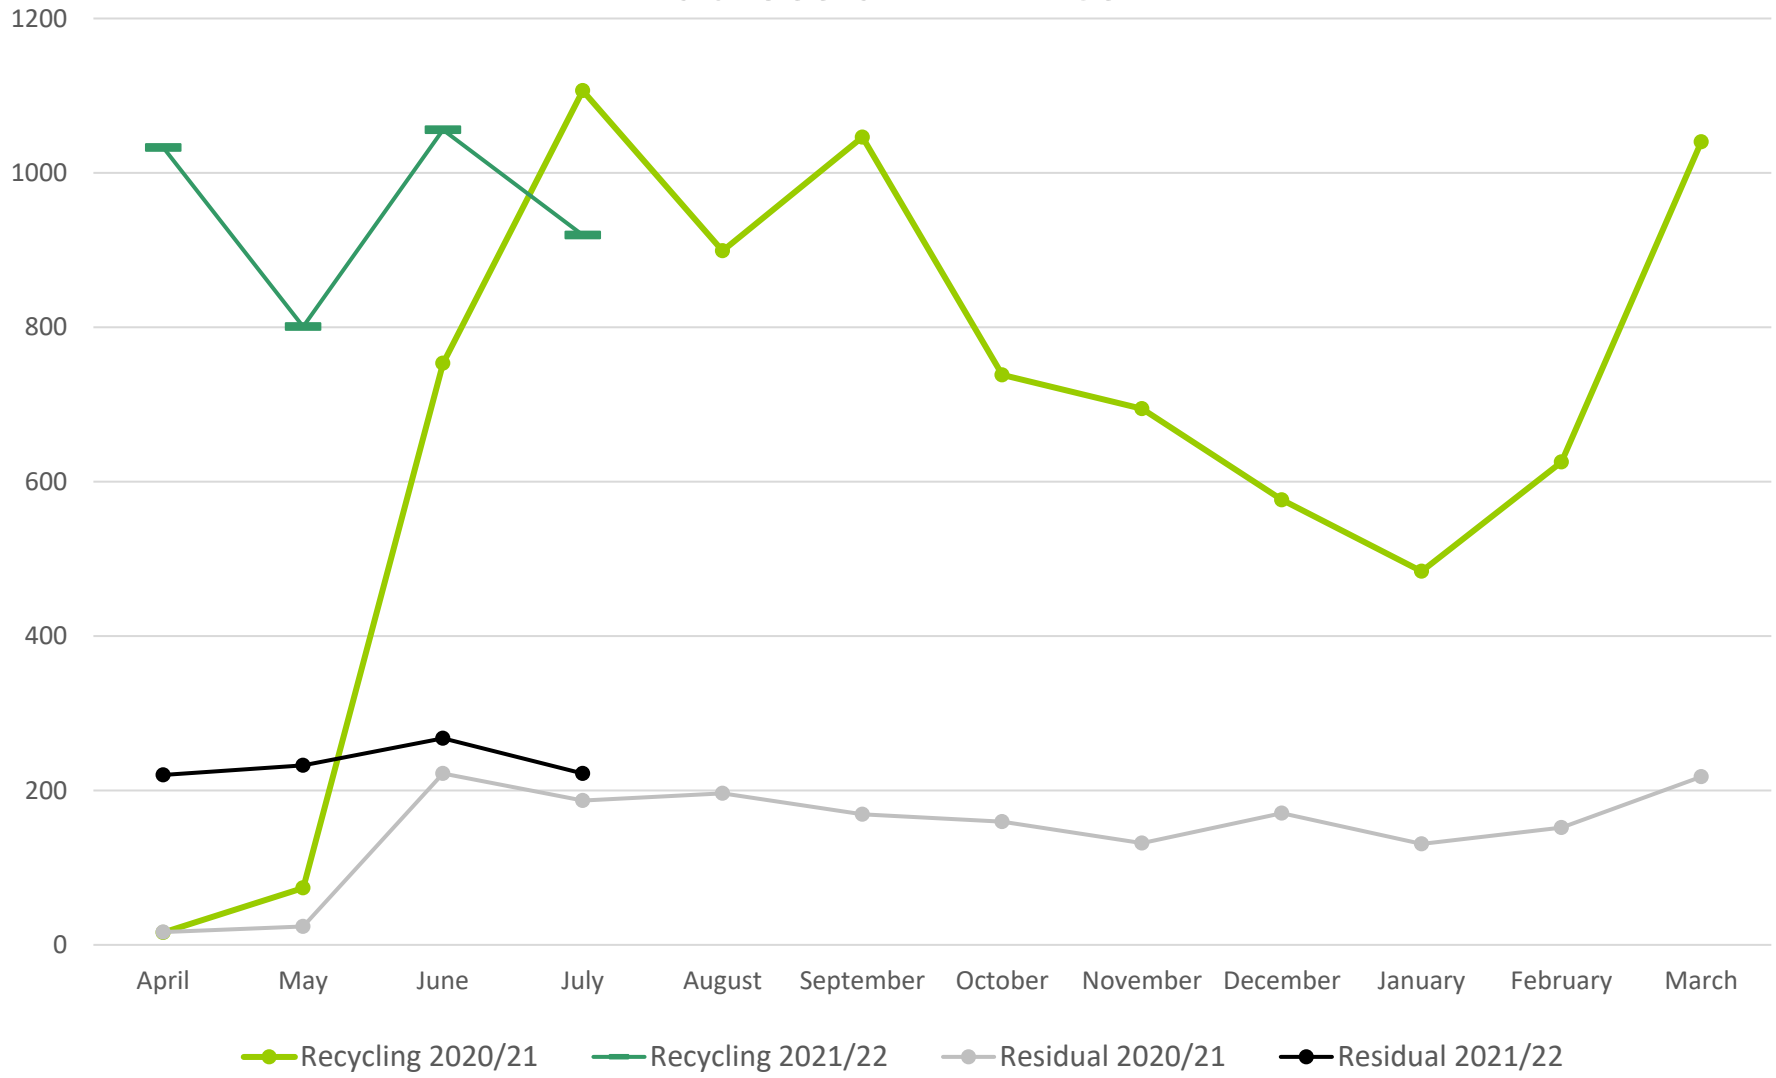
Monthly tonnage of commercial waste (food, dry recycling and residual)



Household Waste Recycling Centres (April to July 2021)



Total tonnages of recycling and residual collected across all HWRCs



Community Recycling (Bring) Sites
