REPORT AUTHOR: David Pritchard Valuer

**SUBJECT: Freehold Community Asset Transfer of Public
Conveniences at Berriew Street, Welshpool**

REPORT FOR: Decision

1.0 Summary

- 1.1 Following Cabinet decision on 29 July 2014 (C161-2014) dialogue has been ongoing with Town and Community Councils regarding alternative service delivery of public conveniences.
- 1.2 Under the Medium Term Financial Plan (MTFP) it was identified that the Local Environmental Services needed to make revenue savings from April 2015.
- 1.3 This report outlines the proposal to complete a freehold Community Asset transfer of public conveniences at Berriew Street in Welshpool. The Town Council hold a lease (see C73- 2013) of the premises and receive the sum of £5,000 per annum this funding will continue for a further 18 months following completion of the freehold transfer. A Plan of the site can be found at Appendix 1.

2.0 Proposal

- 2.1 Discussions with Welshpool Town Council have been taking place with regards a possible freehold transfer to the Town Council of the assets for a nominal £1 consideration. If the transfer takes place the Town Council intends to continue to manage the buildings as public conveniences.
- 2.2 The Policy outlined in the Corporate Asset Policy (CAP) Part 5 Community Asset Transfer (CAT) has been adopted and followed in this case. The Town Council completed an Expression of Interest (EOI see Appendix 2), this has been supported by the Strategic Asset Board.

- 2.3 If, as in this case the proposed CAT is linked to protecting service provision a Business Case is not always required. In this case the service lead (Highways, Transport & Recycling) has demonstrated and provided a written undertaking that the application is deemed sustainable and fits in with the Powys One Plan. Therefore we are happy to proceed without a business case.
- 2.4 As the request was for a freehold transfer, an independent market valuation was commissioned. The District Valuation Service reported a market valuation of £10,000 (ten thousand pounds) based on no restrictions and the presence of the existing lease and £1 (one pound) for the property based on it being sold subject to a covenant that it shall be appropriately maintained and used as public conveniences.
- 2.5 Following Cabinet approval (C159-2015) the Portfolio Holder for Property, Buildings and Housing can now agree Community Asset Transfer where the market value of an individual asset is up to a threshold of £75,000 subject to the Ward Member being supportive of the transfer. Hence Portfolio Holder approval being sought in this case.
- 2.6 The Capital and Financial Planning Accountant comments in 10.1 refer to current carrying amounts as recorded by the statutory asset valuations. The Capital Accountant is required to recognise a loss/gain as appropriate on any capital disposal and this loss is included in the year end Statement of Accounts.
- 2.7 The statutory valuation undertaken has a valuation date of 2015. They do not relate to current market values as confirmed by the District Valuation Service's current report.
- 2.8 The basis of assessing valuations for specialist assets such as public conveniences (where there is no market comparable evidence) is by using the alternative valuation bases of depreciated replacement costs (DRC).
- 2.9 DRC valuations are based on the capital cost of replacing the asset less an assessment for elements of obsolescence such as physical and economic etc. It is a mechanism of arriving at a value and records cost of replacement and not market value. On this basis it is not unusual to see significant differences between carrying amount and ultimate sales figures.
- 2.10 The Highways Transport and Recycling Service has also confirmed that prior to entering into the lease agreement with the Town Council, the annual revenue cost of running the toilets was in the order of £29,000 per year.

3.0 One Powys Plan

- 3.1 The proposed transfer would retain the property for community use and ensure the ongoing upkeep and sustainability of these important sites.
- 3.2 The risk to the Council is that it does not have the financial resources to run the buildings and in the event that the existing lease was surrendered and an appropriate partner not found the facilities would need to close.

4.0 Options Considered/Available

- 4.1 Option 1
Proceed with the Freehold transfer to the Town Council for £1 allowing them to continue to operate them as existing with a restrictive covenant requiring the buildings to be used as public conveniences.
- 4.2 Option 2
Refuse the request for a Freehold transfer to the Town Council for £1 allowing it to continue to operate the conveniences under the existing lease which allows it to terminate the lease resulting in the closure of the public conveniences.

5.0 Preferred Choice and Reasons

- 5.1 The preferred choice is Option 1 a transfer of freehold ownership to the Town Council, which offers the best opportunity for the sustainability of the site and secures its long term future in the existing use whilst protecting the County Council.

6.0 Sustainability and Environmental Issues/Equalities/Crime and Disorder,/Welsh Language/Other Policies etc

- 6.1 The preferred option is considered to be the best option to sustain the future of the properties and their existing use as a community asset. The Town Council has clearly demonstrated in the EOI the intention to continue the buildings existing use.
