REPORT AUTHOR: County Councillor Stephen Hayes
Portfolio Holder for Adult Services

SUBJECT: Response of the Cabinet to Joint Adult Social Care and
Audit Committee report on 'Adult Social Care
Overspend' and follow-up correspondence

REPORT FOR: Information

Purpose

The purpose of this brief report is to provide a Cabinet response to the Joint Adult Social Care and Audit Committee report on the Adult Social Care Overspend ('the Audit/Scrutiny paper') and follow-up correspondence. It seeks to provide context and an update on positive progress and addresses the specific follow-up issues raised by the Joint Scrutiny and Audit Committee. This response fully recognises the valuable role of scrutiny and audit in relation to good governance and organisational improvement.

Context

National pressures on social care are now well understood. In England a £2bn investment has now been committed by the Westminster Government over the next three years to help manage what many commentators are calling a crisis, whilst a longer term and sustainable approach to funding social care is determined. In Wales, an announcement has been made in relation to potential Welsh consequential funding, with the detail yet to follow. Cabinet has recognised the pressure on social care within Powys and is supporting the service to enable service change. This change will take some time to work through and a three year trajectory has been adopted. Good progress has been made with the planning for year one of this period, as reported through the Strategic Overview Board and further work is underway in relation to the following two years under the umbrella of the Health and Care Strategy.

Progress in Year

It is important to acknowledge that significant progress is being made in relation to a number of the key areas addressed by the Audit/Scrutiny paper.

1. Development and utilisation of service and financial information

As the Audit/Scrutiny paper identifies, the timely availability of robust and validated service information and financial information is essential to budget management and forward planning. Having a consistent source of integrated information that benchmarks with others would support service leaders and managers and organisational leaders including Elected Members to work from

'one clear version'. This was particularly and helpfully illustrated in the work of the Joint Committee and underlines the importance of the improvement work required. This is a corporate responsibility which must continue to improve over the coming year, especially but not only in relation to social care. It is important that all relevant information, reliably sourced and validated, is equally available to scrutiny and audit committees to promote a comprehensive approach.

2. Implementation of in-year savings plan

Significant progress has been made on in-year financial management. The over-spend in adult social care projected earlier in the financial year is likely to reduce by around £750k by year end, as a result of actions initiated by the Heads of Service as part of the service's recovery plan: identifying the scale of the financial challenge, securing financial expertise to help provide greater clarity, and ensuring rapid action in specific areas including Learning Disabilities services and residential care.

3. Base budget review

This is important work that was identified as an organisational priority in the Recovery Plan. The Strategic Director of Resources and interim Strategic Director of People are working together on this, however securing sufficient expertise will be important.

4. Short/medium/long term strategy

The Strategic Overview Board has received a detailed presentation on the key considerations for strategic development. A one year plan has been developed and is being implemented. The long term Health and Care Strategy now been approved and work to commence implementation will start shortly.

Further work required

- The understanding which has emerged from recent events of the importance of reliably sourced and validated data, and adequate resourcing of corporate financial support to service delivery, will continue to require improvement and monitoring at management team and cabinet level.
- Continuation of change within the service, both in practice and culture, will be crucial to effective budgeting in 2017-18 and beyond. Demand management and early intervention, in accordance with the Social Services and Wellbeing Act, will be essential components of future budget responsibility.
- Portfolio-holder challenge and scrutiny overview, together with the assurance role of the Regional Partnership Board, will have a key contribution to make in ensuring intentions are translated into practice.

Conclusion

In summary:

- The Audit/Scrutiny paper rightly and effectively highlighted the extent of concern over the scale of the projected 2016-17 overspend in Adult Social Care
- Challenges of service demand and funding are a national issue and Powys is not immune. The Audit/Scrutiny paper sits within this wider context.
- As identified in the paper, timely, reliably sourced and validated statistical, financial and service data is essential both for budget management and for future service planning. The same data should be available to audit and scrutiny bodies to facilitate their work
- The leadership team in adult social care acted swiftly to secure additional accountancy input and is making good progress in service change
- Positive results have been achieved with improved financial performance and a reduction in financial overspend over the last few months. This validates specific initiatives and cultural change work within the service.
- Significant change in the approach to services to move to an early intervention/demand management model will be a focus for the coming three years and will require political, practitioner and public engagement and support to be successful.

CABINET EXECUTIVE

11th April 2017

REPORT AUTHOR: County Councillor Arwel Jones
Portfolio Holder for Education

SUBJECT: ERW Business Plan 2017-20

REPORT FOR: For information

Summary

Through a legal agreement, Powys is one of the six local authorities alongside Ceredigion, Carmarthenshire, Pembrokeshire, Neath Port Talbot and Swansea that constitutes the south west and mid wales regional education service for the delivery of school improvement services.

ERW is governed through a joint committee which comprises the chief executive and leaders of the six authorities.

Background

In order to deliver its strategy, on an annual basis ERW produces a three year business plan which is endorsed by the leaders of the respective local authorities.

The Business Plan for the period 2017-2020 is to be found at Appendix 1 accompanying this report.

Proposal

The proposal is that Cabinet receives the report and business plan for information.

One Powys Plan

Transforming Learning and Skills is one of the five main themes of the One Powys Plan with the overarching aim that "All children and young people are supported to achieve their full potential".

The One Powys Plan states that "we will fully implement the Education through Regional Working (ERW) school improvement strategy. This will ensure school leaders are supported and held to account for their performance and that of their school to ensure that all children achieve their potential".

Foreword

As a Joint Committee, we fully support the priorities and actions noted in this document. We recognise the contribution of school leaders and teachers across the region in sustaining and improving outcomes for learners.

We recognise that we will have to continue to make difficult decisions regionally and locally in order to implement some of the high aspirations. Following our steady but sustainable improvements over the last three years, we feel that we have a strong, motivated and dextrous team across the region ready to empower learners to achieve the best they can.

We know that our best performing schools are continuing to improve. As we work to strengthen the resilience of all schools and the capacity for self-improvement within schools, we are building a self-improving system and creating the climate for further collaboration and cooperation between schools.

We are committed to ongoing improvement, responding to recommendations from Estyn and the WAO. We know that we must continue to improve between and in- school and LA variation, enhance digital competence and deliver a consistently a bespoke high quality menu of support to schools.

We will support leadership at all levels within schools and develop further expertise and capacity where and when it is required. As a region, we will enable and encourage schools to collaborate effectively. In order that school improvement and pupil performance is sustained and improved.

This past year we are proud of the work schools have done together to impact on pupil outcomes and the work we have done jointly with other regions to reduce duplication and share expertise. We are committed to collaboration with other regions.

We are eager to be at the forefront of change. These next three years will be exciting and innovative for education as we implement significant curricular changes and our school staff will need to be dextrous and skilled to respond to the challenges of implementation.

As members of the Joint Committee and representing our respective Local authorities, we the undersigned endorse this plan as a joint statement of intent for the coming three years.

Introduction

This section introduces the region and outlines ERW's vision for improvement. It shares the regional mission statement and explains how it will enhance and develop the National Model of School Improvement, deliver Welsh Government's priorities in Qualified for Life:

We are committed to work with colleagues in other regions and support the principle of a self-improving system for Wales.

The ERW Business Planning arrangements are at three levels and this document is the level 1 plan (see page 16). This document should be considered with all relevant level 2 and 3 plans and the 6 LA annexes.

DRAFT

The ERW strategy sets the following expectations and priority outcomes:

1. **Improve the quality of leadership and its impact on outcomes;**
2. **Improve the quality of teaching and learning experiences and its impact on outcomes**
3. **Reduce the impact of poverty on attainment, support vulnerable learners and ensure all learners reach their potential**
4. **Deliver high quality and bespoke support, challenge and intervention to schools**
5. **To maintain an effective and efficient organisation to support the core business of ERW.**

The ERW Strategy also sets out ERW's mission to:

“Build school capacity through support, challenge and intervention to become self-improving, resilient organisations which continually improve outcomes for learners”

through ensuring effective performance in all schools across the region

Developing and delivering the National Model of School Improvement in ERW

The region is committed to working within the co-constructed National Model, and to respond to the most recent amendments.

Our collaboration locally within education services across six local authorities over the last five years has led to significant improvements in our way of working and is having significant positive impact. The region wants to further maximise our collaborative advantage in order to make the best use of our resources to influence learner outcomes. This year we will review opportunities to better use our resources beyond school improvement. We also want to continue to play a national role with other regions to deliver nationally.

Strengthening our governance arrangements and challenging each other at local authority level have been key characteristics of our work during the last few years. This robust discussion means that we have come to a consensus on the future goals and arrangements. All stakeholders, specifically LAs, are aware of what their contribution has to be to show continued improvements regionally.

An improved digital infrastructure within which to work has made our work increasingly efficient. The detailed use of data and its analysis is enabling us to better target and impact on outcomes. Our evidence clearly demonstrates

the impact of multi-agency working on attendance and outcomes in all key stages and post-16. This is clearly articulated in our regional strategy. We will this year strengthen the infrastructure regionally to share information more easily so that our analysis of the bespoke needs of schools are better captured and planned for. This will enable us to drive better collaboration between schools and to enable schools to undertake some functions that traditionally would have been centrally led and delivered. Using Welsh Government's "Hwb" infrastructure to enable schools to better engage with us is part of our strategy.

However, despite having regional KS4 outcomes above the Welsh average for over five years, we recognise that the pace of improvement on the most significant indicators at all key stages is not consistent across the region and therefore not good enough. The support and intervention we have been able to give each other within and across local authorities has enabled us as a region to have no LA in follow up. This way of working is having a very positive effect with significant improvements made.

Our own self-evaluation tells us that we have become more rigorous and robust in the implementation of the school categorisation system.

The arrangements for our core visits in the Autumn and Spring are clearer and more consistently delivered. Our knowledge of schools is more consistent across the region and as a consequence we are able to provide better quality and better focused support, challenge and intervention earlier in schools that demonstrate underperformance and with greater impact. Schools tell us that the support is better focused and targeted to need. We will also focus on rewarding our best teachers whilst tackling underperformance so that learners get good teaching every day. Supporting teachers will be a key priority for us, using our capacity to give useful tools and resources to teachers, so that they can better focus on learner needs. This is especially important as we tackle the link between poverty and educational attainment, and focus on supporting boys to benefit consistently from a good quality education system and good teaching.

We will continue to work productively with external partners to bring about improvement. We are working well with higher education partners to support improvement in initial teacher training and early support for teachers in their careers. Our partnership with the University of Wales Trinity St David is already overcoming some sectoral boundaries previously hindering effective transition between the student experience and the classroom.

We are dovetailing resources and avoiding unnecessary duplication so that schools get resources that are helpful in a timely way.

Successful actions and initiatives that bring about improvement are shared across Wales and other regions so that further improvement can be sought by sharing and working with others.

Regional Priorities and National Priorities

ERW is confident in tackling identified challenges and building on our strengths. This requires prioritising the most important aspects of our work and targeting the necessary support to both schools and learners in a timely way. Responding proactively to the objectives set out in Qualified for Life 2¹ and the curricular changes ahead in response to Successful Futures will require a significant focus on workforce support and development. The Professional learning and the Furlong recommendations are welcomed. These key drivers of education in Wales currently, reflect well the direction in which ERW has been steered in recent years. As a region we are strengthening existing partnerships with higher education and supporting school staff to rebuild confidence and morale whilst re-skilling for a digital future.

The self-improving system for education will require these strategic partnerships to work together creatively so that the system shapes its own dextrous workforce. We are already working with other regions and ADEW to shape a national narrative and system to help ourselves. Already our workforce research is informing the way we plan to support teachers through the professional learning.

Raising standards of teaching for all will be a key priority for the region. We strive for every teacher to be a good teacher over time, and for pupils to receive good or better teaching every day in every lesson.

“The quality of teaching in a school has a direct impact on the standards that pupils achieve. It is the single most important factor in helping pupils to achieve their potential.”

Estyn Annual Report 2015-16

We therefore need to consistently and with a common approach recognise and reward the increasing excellence by some teachers, as well as tackle underperformance, across our six local authorities. The proportion of adequate or unsatisfactory teaching is increasing at a quicker pace than the proportion of excellent teaching. Estyn also reports that ‘improving teaching’ is one of the most common recommendations in school inspections. In ERW the percentage of schools with this as a recommendation is nearly 10%. This is an important aspect for us to consider, even in good or better schools, where inter department and inter school variation affect the standards of teaching.

We are committed to supporting performance management systems and CPD for teachers and professional learning. Supporting and delivering effective and high quality professional learning to support teachers and school leaders will dovetail with our work on improving teaching. ERW will support teachers to strive for excellence and support teachers with new areas of work and curricular changes. We know that most of our teachers are good, and teach well consistently. We must support all teachers to become consistently good and better. Work on the new teacher standards will enable us.

We are committed to leading a changing climate in education, in light of the new Successful Futures curriculum and as the role of technology in pedagogy becomes increasingly essential. Raising our digital competency across all areas of delivery is key to more efficient and effective working.

¹ <http://gov.wales/docs/dcells/publications/141001-qualified-for-life-en.pdf>

We will work to demonstrate improved use of skills in line with the requirements of the new GCSEs and PISA. We will engage with schools through EIG funded programmes to prioritise and focus our work in the right areas. Supporting the delivery and implementation of the Digital Competence Framework will become a priority as will be upskilling staff. As a region, we need to capitalise on the current infrastructure for digital learning as means of engaging pupils and teachers in learning opportunities. We will work on maximising our use of the technology and skills available to enhance pedagogy and school improvement.

Building our capacity to lead the most effective departments and subject areas will mean additional support where we have identified areas for development. The changes to science for example will lead to a retraining programme in some schools, making sure all staff have the skills for future curriculum delivery.

This year again, we accelerated the pace of improvement for e-fsm learners significantly. Nevertheless, we also recognise the need to improve the attainment of specific groups of learners. For those in receipt of FSM we will support schools to make best and targeted use of the additional resources for these pupils. Other learners living in poverty, including rural poverty need our support.

In addition, we will encourage schools where interventions to reduce the impact of poverty on educational outcome are working well, and capitalise on their experiences to support others.

We also raise standards and tackle risk of underachievement for pupils from ethnic minority backgrounds in particular those learning English (and /or Welsh) as an additional language (EAL). Specialist advice, support, guidance, continuing professional development and training is a pivotal element of this work to make sure that pupils from ethnic minority backgrounds are: fully included and happy in school; attend school regularly; have their language and learning needs appropriately assessed and met; achieve within the National Curriculum (NC) at levels in line with their starting point/fluency in English; and achieve their individual academic potential. This means that we need to make sure that all schools know their pupils well, and support them accordingly.

Our evaluation of successful strategies tells us that differentiation in teaching is variable and that we need to focus on improving this so that all learners perform well. Our More Able and Talented pupils do not consistently gain access to the right support to enable this to flourish. This will be a task for the life of this Business Plan.

Supporting the development of Welsh medium education with appropriate access to bespoke data analysis for core visits and high quality resources at all key stages will be a priority early in the year. This will enable our teachers to have improved access and consistent access to resources they need to support learners.

Our role in fully embedding the LNF across all key stages in welcomed and will be planned in line with the work already underway at a regional level. Securing a good foundation for learners in the Foundation Phase to build the literacy and numeracy skills will be prioritised. We know that our work in this area has impacted on engagement of pupils in learning and raised aspirations.

Annually, towards the end of May, ERW will refresh its self-evaluation report. This takes account of the recommendations from key reviews and the useful feedback from inspection, audit and regulatory bodies as well as the findings of our own quality cycle and data analysis.

Sustained planning and improvement over three years is a goal which we aim to deliver in the second part of the plan. This section outlines the internal and organisational ways that ERW must strengthen accountability,

communication, systems and processes to enable greater efficiency and yield to learner outcomes. Identifying how we deliver value for money in improving learner outcomes is key to a successful partnership with schools and others.

Qualified for Life 2, WG's mission document for the next few years gives us a clear steer to help deliver our vision. This plan commits us to five Improvement Objectives, which will focus our activities on:

- Wellbeing and equity,
- Curriculum and Assessment,
- Pedagogy (teaching),
- Leadership and
- A self-improving system

For each of the 5 objectives, developments have been continuously taking place over recent years. None of the areas are new, but they are being linked as we move forward into a model of improvement which cuts across all tiers, and which will require effective collaboration across all three tiers – Welsh Government, local and regional services and at school level.

In particular, ERW is keen to make greater contribution to the work on equity and wellbeing and securing pupils preparedness and readiness to learn. Building every teacher's capacity and resilience of responding consistently to the needs of all learners will be a challenge for the region, especially as we need to maintain and enhance the standards across the region.

Regionally, our arrangements for moderating and standardising teachers' assessments are good and have been shared nationally. Our steps to secure robust support for the workforce in schools as they manage significant change is moving ahead. Within this context, we will balance this with reducing teacher workload and bureaucracy. A clear plan of action on workload and work/life balance of teachers is planned.

ERW notes in this document how we will support and engage in the implementation of key government policies. We want to support our regional workforce, to regain confidence in teaching as a profession through effective support and challenge; we want to build leadership capacity from the inside out and work together to capitalise on the region's strengths to share this together; we seek a rich curriculum with valued outcomes for all. This picture will change, as we await the implications, we are committed to change for improvement.

By 2021, all schools in Wales will be planning and delivering a curriculum defined as including all of the learning experiences and assessment activities focussed on creating

- ambitious, capable learners who are ready to learn throughout their lives
- enterprising, creative contributors, ready to play a full part in life and work
- ethical, informed citizens of Wales and the world
- healthy, confident individuals, ready to lead fulfilling lives as valued members of society.

This vision is echoed by UNESCO in 2004 and these educational and social values are already adhered to in most developed countries. In order to achieve this goal, we will have a teaching profession working to a set of professional standards which develops evidence based outstanding pedagogy through professional learning, innovation, leadership and collaboration. Schools will be vibrant learning organisations working

together within and influencing a self-improving system to the benefit of all. Educational inequities will be addressed and reduced within and between schools. Learners will benefit from an all age learning continuum. We will need to focus on how we teach and not just the what. Finally, all schools will be moving towards being engaged in a Successful Futures network

Successful Futures means...

Moving from a curriculum that is...	To a curriculum that is...	Realised by professionals who...
Dominated by content with unclear sense of purpose	Driven by the four purposes and outcomes for learners	Have the competence, freedom and confidence to decide what and how learners learn
Layered with competing skills frameworks	Focused on skills	Know and understand well the requirements of a literate, numerate and digitally competent workforce
Imposed on schools from outside	Determined at school level	Lead change and improvement at every level of school life
Assessment undermined by accountability processes	Assessed for and as learning	Assess progress well, and report on progress with high reliability
Reported as levels and numbers	Reported as individual progress against skills and purposes	
Unable to supply teachers and head teachers with the necessary professional learning opportunities	Supplying ongoing, high quality professional learning to all practitioners.	Have access to high quality professional learning throughout their careers. Are themselves collaborative, innovative, reflective learners
Stifling creativity, and therefore affecting morale and workload	Enterprising and creative, creating teachers who are engaged in design and delivery	Are free to think creatively and innovate in a professional capacity.
Based on a compliance model following fragmented national policies	Cognisant and reflecting "systemness" – (Fullan 2015)	See and understand the vision strategy and synergy of policy translated in leadership and classroom practice.

The ultimate goal here is to positively impact upon the education system in Wales through;

- fostering motivation of teachers and students
- supporting continuous improvement through evidence based professional learning
- developing the architectural structures for a self-improving school system

Our internal organisational improvement priorities are focused on consistency, communication and securing value for money whilst raising standards for learners. This year we will focus on using our increased capacity for communications and marketing to make sure that our messages of support, improvement and strategy are focused and consistently clear.

The collaborative climate re-emphasised in the Future Generation Act supports ERW's approach to strong partnerships. Our governance and delivery model is about strengthening partnerships. Genuine co-operation from Welsh Government will enable us to be more effective in delivering key priorities.

We have worked well with other regions to tackle difficult issues. It is envisaged that we can further work to overcome common challenges.

A separate joint plan is monitored by the MDs as to how we deliver the actions jointly agreed. These include

Risk Register

ERW's risk register has evolved in line with Internal Audit expectation and feedback from Estyn and the WAO. From April 2015, the register has formed part of the Business Planning framework. It informs the Self Evaluation and annual refresh of the Business Plan

The Managing Director takes responsibility for coordinating and managing the risk register, however, named LAs or individuals will be noted as owners, and will be responsible for mitigating actions in conjunction with ERW's central team. The register is monitored quarterly. Each Hub QA and LA Directors must take responsibility for accuracy and ownership for local risks.

ERW has identified the process of taking action to mitigate risk and managing risks between the LA and the region as a key area to strengthen and to build on the current position. Quarterly updates are made bringing together the risks of the six LAs and ERW to make sure that the processes are effectively working together rather than avoiding or missing issues.

The risk register is a standing agenda item on both Executive Board and Joint Committee.

The format of the register will allow for the following stages to take place in terms of mitigation.

- Terminate
- Tolerate – accept e.g. WG use of grants
- Transfer to 3rd party / LA
- Treat – mitigate, reduce to acceptable level.

The ERW register is split into three sections

1. Corporate risks
2. Operational school improvement risks, by local authority
3. Financial risk

Effective management of the region's risk will enable us to support the organisation's objectives, make effective use of resources and deliver outcomes as intended. Effective planning to mitigate risks will maximise opportunities and protect ERW's reputation and assets.

Democratic Accountability and Scrutiny Framework

The cross region forward work programme has enabled the region to build on the most effective scrutiny practices across the six LAs. From April 2015, a structured framework has been established to strengthen arrangements.

In ERW's organisational design all roads lead to local democratic accountability and scrutiny. All work streams and activity both locally and regionally are led by the Joint Committee and are accountable locally. We think this is critically important because the resources and statutory duties currently lie with the LA.

An annual **Regional Forward Work Programme** for scrutiny is in place and embedded. This includes pupil performance data as early as possible; progress of ERW Business Plan priorities; ERW governance & categorisation. The regional FWP is coordinated centrally, and overseen by the Managing Director and a group of scrutiny officers from the six LAs. It has been agreed by the Joint Committee, Executive Board and Scrutiny officers to work towards a common strategy, plan and approach whilst working within local arrangements and schedules.

The Regional Forward Work programme will:

- provide elected members with the required oversight and scrutiny locally;
- secure the effective coordination of regional work
- make sure that the local statutory responsibility for school improvement, and the work of locally employed officers is overseen locally;
- not add to the bureaucratic burden and the work of both officers and members, and minimise the risk of duplicating roles;
- enhance all members' information on the region's work;
- allow high quality challenge and focused accountability of the region's work and
- build on best practice

A **twice yearly seminar for Chairs and Vice Chairs** is also in place and has a clear role and function. The work is coordinated by City and County of Swansea. The **Scrutiny Councillor Group** write a letter to the chair of the Joint Committee after every meeting.

The work programme for 2017 – 2020 aims to:

- build on existing effective practice across the six authorities;
- support members by providing high quality, accurate and consistent information on school performance as well as ERW's performance;
- enable members to be fully informed and therefore be in a better position to challenge and question the region's performance as well as focusing on their individual authority;
- provide a stable foundation on which to evolve an increasingly common approach across the region;
- sharing best practice – calling schools to scrutiny where necessary; targeted investigations on key issues.
- Shared area on ERW Intranet to share practice and resources. Specifically, investigations which have cross LA impact will be shared.

Additional engagement of elected members:

- We will also provide a seminar to all elected members in the region annually on ERW's work, highlighting the context in each Local Authority;
- Develop an information pack for elected members;
- Engage portfolio holders in Hub QA.

DRAFT

Value for Money Framework

Following establishing a draft framework against which to measure value for money during 2014-15. ERW has reviewed working arrangements and sought to value the efficiencies made as well as judge the impact on outcomes over all. The framework has been enhanced, with additional fields and further information.

This year we will enhance the work further and include a work plan for value for money. We have selected five areas of focus. Each level 2 and 3 plan will include a judgement on Value for Money.

The evaluation of a range of information and evidence enables us to come to a judgement on the effectiveness and value for money provided by ERW. This means that we need to assess whether or not we have obtained maximum benefit from the goods and services both acquired and provided within the resources available. In addition, we need to judge whether strategies and interventions have been more successful than if implemented differently.

There are a range of aspects contributing to the judgement. The framework has seven aspects contributing to the judgement. Economy, efficiency, added value, collaborative advantage, effectiveness, sustainability and quality.

Economy – minimising the resources used

Efficiency – relationship between output from services and the resources used to produce them

Effectiveness – relationship between outcomes and impact

Sustainability – including succession planning and professional development and capacity building

Collaborative advantage – making the most effective use of each other's combined capacity

Added value - Gaining more than the optimum expectation.

Quality -Securing better quality and a focus on improvement.

All Value for money reports are reported within the ERW governance structure and inform the self-evaluation, risk register and financial planning.

During 2017-2018 ERW will look at the following 5 items:

- The impact of increased digital working on travel and subsistence and stationery
- Comparisons with other regions.
- Workforce planning.
- The collaborative advantage of regional working to support vulnerable learners
- The impact of collaboration on school outcomes

LA Roles and Responsibilities

The implementations of ERW's work streams for the next three years requires each Local Authority to maintain its commitment to ERW of securing a full complement² of Challenge Advisers who meet the required National Standards and adhere to ERW's Code of Conduct.

In order to deliver the priorities, set out in its Business Plan and Strategy, ERW and the constituent six local authorities have established a small number of working groups to support delivery.

The aim is to illustrate how this structure supports the effective delivery and accountability of the region's work and supports the dual accountability of each individual to the Local Authority Director and the Managing Director. Responsibilities set out here should be reflected in the performance management and appraisal systems of each employing Local Authority.

LA Directors should

- make sure that those representing authorities are the right individuals and fully contribute to the work of the group;
- utilise internal performance management arrangements to hold staff to account for regional roles and responsibilities;
- make sure the full complement of Challenge Advisers is provided to ERW.

ERW Quality Assurance Calendar 2015 – 2017

To develop and implement consistent quality assurance processes and improvement arrangements across the region, whilst securing consistent quality of service delivery to schools as set out in Ladder of Support and ERW Business Plan.

The purpose of the ERW Quality Calendar is:

- to safeguard and raise the academic standards of pupils in all schools across ERW;
- to assure the quality of the support opportunities that ERW offers to schools;
- to promote continuous and systematic improvement across ERW;
- to ensure that information provided by ERW is accurate and of a high quality to inform self-evaluation and on-going improvement;

See Annex for the full Quality Assurance Calendar

Self-evaluation Precis

Main strengths and areas for improvement.

For further details, see Self-Evaluation Report. This section includes a precis of the main issues.

Precis

Outcomes continue to improve at a faster pace than the Wales average, specifically the outcomes for efsm learners. At KS4 standards in ERW are better than the national average and when set in context.

Schools receive consistently high levels of challenge. However, further work is required to make sure that all support brokered and provided for schools is fully recognised and makes significant impact. This is especially true in schools where progress is slow.

Overall, across the scope of the region's work, strengths clearly outweigh areas for improvement. The good self-knowledge of the organisation and its track record of responsive and quick systems and infrastructure improvement, lead to the prospects for further improvement being good.

Performance

Strengths

- **KS4 – L2+** has been the highest in Wales for the past 3 years and is above the expected outcome contextually **with accelerated improvement over the past 2 years including eFSM**.
- **KS4 – L2** Highest in Wales for the past three years with a steady improving profile.
- Good performance overall on **higher outcomes** across all key stages
- **Attendance** – 2014 saw the largest increase since records began in the primary and secondary sectors, with attendance at 94.9% and 93.7% respectively (secondary now at 94.0% in 2015) Attendance of eFSM pupils is also stronger in ERW than nationally.

Areas Requiring Further Improvement

- **Continue to reduce variation between the performance of targeted groups of learners whilst continuing to improve overall performance; (boys, efsm)**. Regional strategies have been successful in bringing about improvement in these areas, this work now needs to be shared more explicitly and systematically. The most effective schools are sharing their work, but ERW can do more to make sure that the school requiring improvement are directed towards these schools. Targeted focused interventions led by the region have worked well, however, increasingly directed monitoring of specific schools is necessary to make sure that leaders are maintaining agreed strategies.
- **Accelerate the pace at which standards are raised and improve attitudes to learning at KS4 in rural schools**. The region has initiated greater leadership development capacity across the region and specifically to the three rural authorities. It is too early to measure the impact. In addition, the region has commissioned research to identify the actual challenges to these schools to help identify further solutions. Strategic interventions at Senior officer levels in most LAs are contributing to the work to tackle this area of work. In addition, a national recruitment and retention campaign to respond to the difficulty in recruiting to leadership role is under way.

Services

Strengths

- ERW knows well the strengths and weaknesses of its schools and takes care to provide support which meets the needs of schools whilst also maintaining professional dialogue with school leaders. Core visits are the mainstay of this work and are appropriately challenging.
- Thorough and systematic analysis of data enables the region to identify the appropriate differentiated support to be offered regionally, locally or at an individual school level.
- Challenge to schools in need of change is good and consistent.
- The region is pro-active, and foresees changes to curriculum and practice and provides support accordingly. Future planning for workforce needs is good and innovative. Similarly, the region is responsive to school requests and external feedback which ensure the support offered is fit for purpose and current.

- ERW is creating the appropriate conditions for a resilient self-improving system by investing in schools, building leadership capacity and enabling schools to develop support between themselves. Embedding the principles of school led system in all its core work.

Areas Requiring Further Improvement

- **A relentless focus on building leadership capacity.** The region has to build resilience in school leadership for the near future and medium to long term. School improvement strategies, whether externally driven or as part of a move towards a self-improving system have to be based on highly effective leadership teams in schools. The region is well placed to continue to give professional learning and leadership development the necessary priority. The role of pioneer schools in leading this work regionally and nationally will become increasingly important.
- A **very** few schools' capacity to self-improve with support is not recognised quickly enough. As a result, the impact of support and intervention takes longer to impact on outcomes for learners. A review of the most successful strategies has led to a changing approach in a few schools, this is mostly led to increased roles for successful head teachers to help coach through and build capacity as well as establish relevant systems and structures.
- The rate of progress within a few secondary schools within the region is too slow. Individualised interventions are in place, at LA and ERW level, and working well and building a track record of improvement in the majority of settings. **Nevertheless, there are a very few schools causing significant concern.** Strategies plans to guide the balance of intervention between LA and region have been established with a clear mandate and sign up from elected members and Chief Execs to bring about improvement. On rare occasions, a strong formative assessment of school needs is not followed up quickly or rigorously enough.
- Provide more effective feedback on the quality of schools' self-evaluation processes and strategic planning. Most challenge advisers are addressing this well through monitoring visits. However, the rigour of feedback is inconsistent. As expectations are raised, a clear focus on the relevance and implementation of plans is key. In a self-improving system, the increased need to make the right judgement and give correct advice on important school improvement systems are increasingly important.
- **Make sure that the improvements and changes in focus in support for school improvement for governors are widely understood and continue to be relevant.** ERW's support and role in facilitating the strengthening of governors to and school improvement is adequate but the current work underway will build capacity in governing bodies sustainably and to focus activities on statutory responsibility and pupil performance.

Leadership

Strengths

- Distributive leadership and joint ownership of regional vision and outcomes across six local authorities from elected members to operational staff, and a direct consequential impact on activities, financial planning and pupil performance;

- Relevant and purposeful regional strategic planning encompassing useful alignment of national priorities and pressures and local democratic accountability – and an impact directly on outcomes and actions achieved;
- Mainstreaming and strategic planning, decision making and financial arrangements to support climate of change leading to self-improving system;
- A well informed focused culture of continuous self-improvement and a responsive approach to evaluating and improving services to schools.

Areas Requiring Further Improvement

- **Continue to plan strategically to meet the recruitment challenges, especially in school leadership.** A plan for 2016-17 to work nationally to tackle the recruitment and retention problems facing the region. the support of HE and other regions. Maturing partnerships with a wide range of stakeholders are well placed to support this work.
- **Make greater use of research to monitor the impact of strategies on outcomes and to better understand the context of the region, and to use the strategies to influence WG priorities.** Evaluation and reviewing impact of strategies used by the region is a priority as differentiation of impact is emerging as a shortcoming. As well as evaluating its own work more robustly, ERW has commissioned key areas of research externally. In addition, systematic ways of sharing and evaluating impact between schools will better inform the self-improving system strategy of the region.
- **Continue to ensure that value for money is maintained by having very few schools or provisions in need of significant support and increase the proportion of schools that best fit A and B type characteristics for leadership and quality of teaching (using the national categorisation system).** Enabling schools and school improvement professionals to continue to learn and develop the necessary skills to lead improvement are key to overcoming key hurdles to improvement. This is especially acute in a minority of our secondary schools where improvement is not good enough. This work is ongoing but its impact is not measurable as yet.
- Improve strategic planning, especially the link between the LA plans and those of the region. This is largely met through new Business Planning arrangements.
- **Further improvements in Communication systems and the analysis of communications.** Despite a clear step change and improved arrangements, further improvements are necessary. Refining the use of the sophisticated feedback on our communications needs further analysis and work so that we reduce furthermore the issues and missed opportunities related to communications.
- **Build on the increasing track record of working strategically with other regions.** Already a joint plan is in place, and is reviewed regularly by MDs. Our collective work has the potential to better inform and influence national policy.
- **Strengthen and make permanent the capacity of the Central Team.** The embedding and stabilising of the Central Team is necessary to guide the further improvements across the region.

Priorities

This section outlines ERW's priorities for school improvement and improving learner outcomes. It provides oversight of the previous year and set targets for the next two years... The region's priorities are grouped into 5 strategic themes:

ERW will:

1. improve the quality of **leadership** and its impact on outcomes;
2. improve the quality of **teaching and learning experiences** and its impact on outcomes
3. reduce the impact of poverty on attainment, support vulnerable learners and **ensure all learners reach their potential**
4. deliver **high quality and bespoke support**, challenge and intervention to schools
5. To maintain an **effective and efficient organisation** to support the core business of ERW.

Success Criteria

This section draws together all the success criteria that ERW expect over the next three years. Each work stream has identified challenging and aspirational questions

- Literacy and Numeracy
- Digital Learning
- Reducing the impact of poverty on attainment (Poverty)
- Professional Learning (and Leadership)
- Self-Improving School System
- Curriculum Support (14-19, FP, GCSE, Welsh Bac, PISA)
- Governor Support
- Welsh in Education
- HR
- MEAG
- Teacher assessment
- Monitoring, support, challenge, intervention (and categorisation) MSCI
- Safeguarding
- Support for Learning
- Schools Causing Concern
- Quality Assurance
- Attendance

Key:

✓ Yes, working well

? Not clear on impact and evidence

✓ Yes, continuing our work

✗ Further work required

2015 – 2016

- Are learners developing their literacy and numeracy skills at and above expected levels? ✓
- Do ERW schools have the capacity to deliver and drive improvement in literacy and numeracy? ✓
- Is numeracy being as well developed across all subjects as literacy? ✓
- Are schools being provided with the correct and necessary support to help them improve? ✓
- Are we challenging pupil progress sufficiently to ensure all pupils make good or better progress in their literacy and numeracy skills? ✓
- Is our bespoke and central training fit for purpose? ✓

2016 – 2017

- Is the LNF embedded in our schools?
- Are all green and yellow schools engaging in supportive arrangements where they can build their own capacity whilst supporting others?
- Are we strengthening the index of excellence by including specific practice in relation to literacy and numeracy development? ✓
- Are we effectively Quality Assuring the work of subject specialist officers across all LAs? ✓

2017 – 2018

- Are schools well supported by each other for Literacy and Numeracy?
- Have standards in literacy and numeracy accelerated at a quicker pace than in the previous three years and at a faster pace than other regions?
- Are our learners better able to engage with further learning because of improved literacy and numeracy skills?

2018 – 2019

- Are literacy and numeracy strategies well supported by digital learning?
- Do our schools now feel equally confident in literacy and numeracy?
- Have the resources and support provided by or facilitated through ERW gained impact on teacher standards?

Work stream: Digital Learning

What will success look like?

2015 – 2016

- Are learners able to apply their ICT skills successfully in context across the curriculum? ✓
- Are teachers and support staff fully equipped to support learners to develop and use their ICT skills for learning? ✓
- Do ERW schools have the capacity to deliver and drive improvement in ICT for learning?
- Are learners able to keep themselves safe online? ✓
- Are schools being provided with the correct and necessary support to help them improve? ✓
- Are we challenging pupil progress sufficiently to ensure all pupils make a good or better progress in their ICT skills? ✓
- Is our bespoke and central training fit for purpose? ?

2016 – 2017

- Do ERW monitor and support eSafety practices in schools? ✓
- Do ERW schools engage with the 360 degrees Safe Cymru Framework, to ensure pupils, staff, parents and governors are as safe online, as possible? ✓
- Are we strengthening the index of excellence by including specific practice in relation to Digital Competence use and development? ✓
- Are all ERW schools fully aware of the potential afforded by the variety of online tools provided by Hwb? ✓
- Have ERW schools identified individuals to be responsible for Digital Competence and are these colleagues being supported appropriately? ✓
- Are appropriate Level 2 qualifications being supported appropriately across ERW and are standards in L2 qualifications improving over the past 3 years? ✓

2017 – 2018

- Are schools well supported by each other, with school to school networks such as Hwb Centres of Excellence, Digital Pioneer Schools, 360 safe Cymru Schools, subject PLCs, etc, being developed and used to their full potential?
- Are ERW schools continuing to engaging with the National Digital Competence Framework?
- Are ERW schools being supported appropriately in their engagement with the Digital Competence Framework?
- Is the schools' engagement with Hwb having a positive effect on standards across the curriculum?

2018 – 2019

- Is school to school support and challenge developing the Digital Competence of both pupils and staff?
- Are all ERW schools fully engaged with the National Digital Competence Framework?
- Is the challenge provided by ERW in schools engagement with the Digital Framework at an appropriate level?
- Is the schools' engagement with the Digital Competence Framework having a positive effect on standards at all stages of pupil progress?

Choosing Priorities

<p>Beth yw ein prif lwyddiannau? (ystyriwch Gynllun Busnes llynedd)</p> <p>What are our main successes? (Consider last year's Business Plan)</p>	<p>The region has been successful in its bid for the ALN innovation fund that will drive improvement for 2017 onwards. Planning for Level 3 has provided increased focus for activity.</p>
<p>Nodwch unrhyw feysydd na chwblhawyd yn ystod y flwyddyn ddiwethaf a fydd angen derbyn sylw yn y cynllun newydd.</p> <p>Are there any actions that are incomplete from 2015-16 that should be carried forward to 2016-17?</p>	<p>There needs to be an improved and focused approach to coordinating the work of the Support for Learning Priority Board.</p>
<p>Sut ydych yn cynllunio i ddarparu gwerth am arian yn eich maes?</p> <p>How do you plan to provide value for money in your area?</p>	<ul style="list-style-type: none"> Resources will be developed in order to reduce duplication in schools. As a result, there will be time savings for LAs resulting in reduction in staffing costs. All resources will be quality assured to ensure that materials and system produced will result in improved outcomes for learners and teaching staff. The resources produced will provide a valuable and sustainable repository for schools which can be updated with minimal input. There will be significant advantages in economy as a result of LAs working collaboratively to share best practice.

			<ul style="list-style-type: none">The sharing of quality assured resources will result in better focus on improvement and improved outcome for pupils.
