### REPORT UPDATE

Following my previous report circulated to Members, additional correspondence has been received from the applicant. The correspondence states as follows:

#### Public Representations

Just a little extra information for the planning committee, only if you think it appropriate, to explain the reasons why I am seeking committee's approval for my planning application to extend our family home.

The extension will enable my parents to come and live with us. They plan to move from Cardiff and be part of our family, this will enable me to support my mum and dad as they grow older. We plan to design our house to meet all of their future needs. We have a large family, not only do my husband and I have four children but I have four brothers who regularly come with their families to stay with us on the farm. Their visits will become even more frequent when mum and dad come to live with us; the extra space will be essential.
