## **QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS**

Response by the Portfolio Holder:

I can advise that this Authority has been successful in obtaining a grant to install chargers in some of our off street car parks, more information can be seen at <https://en.powys.gov.uk/article/7890/Electric-vehicle-charging-points-rev-up>

We are also seeking further funding opportunities to enable more chargers to be installed at other locations across the county.

Unfortunately, it is not simple to install EV chargers within existing infrastructure such as lampposts since the cabling etc in place here is only sufficient to power the lamps on the columns. It is therefore not currently feasible or safe to add charge points to the lamp posts.
