## **QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS**

Response by the Portfolio Holder:

Thank you for your questions.

- Gritting of County Hall carpark and entrance road - as you will be aware there are still limited numbers of staff working from County Hall along with contractors working on the ground floor alterations. Powys CC have a duty of care for these members of staff and any pre- agreed gritting must continue. Additionally, County Hall carpark has also been used for Covid testing and the top of the car park is also used to access Cefnlllys school which has remained open for key workers children.
- Other properties - where gritting is agreed then this is continuing.
- Gritting Hierarchy - Current gritting routes were developed some years ago and it is questionable how some roads were included, basically there was no set criteria to ensure consistency across the county. The new hierarchy being developed will ensure whatever is included in Brecknockshire will also be included in Radnorshire and Montgomeryshire i.e. a consistent approach. Class 1 roads would be top of the list to salt with the majority of rural class 3 and U/C roads probably not being included unless there is a special requirement such as a hospital or fire station.
- Wylsefield Home - I will arrange for additional salt bins to be provided along the public highway leading to Wylesfield, road users / residents will then be able to help themselves.
