QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS

Question From:	County Councillor Matthew Dorrance
Subject:	Plans to make existing housing stock more energy efficient
Question To:	County Councillor Iain McIntosh Portfolio Holder for Economic Development, Planning & Housing

Question:

The Welsh Government's Housing Quality Standard (WHQS) has made a significant difference in ensuring this Council brings its housing stock up to a decent level so our tenants can live in good quality homes.

Through the WHQS new insulation, windows and roofing has all helped to improve the energy efficiency of our homes.

As the Council is developing new schemes that meet Passive Haus standards and schemes with solar panels, it has exposed a need to take further action to make our existing housing stock even more energy efficient and further cut emissions.

This is amplified by the Council's recent declaration of a climate emergency.

Therefore, will you explain the Council's plan to meet these objectives?
