## **QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS**

Response by the Portfolio Holder:

The Household Waste Recycling Centres are provided for residents to recycle their household waste, with commercial operators not permitted to use them except for specified materials under a paid for recycling permit. Non legitimate use of these sites by traders is not only illegal but also incurs a considerable cost to the authority, which is why measures are in place to restrict this activity.

If residents do need to use a commercial type vehicle or trailer for their own household waste and recycling, all they need to do is apply for a permit which is a very simple process. This entitles residents to use the sites up to 12 times each year with full details, including terms and conditions and how to apply, on our website.
