- (d) The Committee noted that no Member (who is not a member of the Committee) would be speaking as the 'local representative' in respect of any application on the agenda.

4.	PLANNING APPLICATIONS FOR CONSIDERATION BY THE COMMITTEE
-----------	---

The Committee considered the report of the Head of Property, Planning and Public Protection (copies filed with the signed minutes).

4.1 Updates

The Members confirmed that they had received and had time to read the update circulated the previous day and prior to the meeting.

4.2 20/2130/FUL Newbridge Farm, Meifod, Powys SY22 6HS

Grid Ref: E: 312778 N: 310605

Valid Date: 03/02/21

Community Council: Llangyniew Community Council

Applicant: J & E Williams

Location: Newbridge Farm, Meifod, Powys, SY22 6HS

Proposal: Installation of earth banked slurry lagoon and associated works

Application Type: Full application

Mr Marc Jones and Mrs Christine Gray spoke against the application.
Mr Gary Owen spoke on behalf of the applicant.

The committee noted that Water Resources (Control of Agricultural Pollution) (Wales) Regulations 2021 required all slurry stores to comply with the relevant requirements by the 1 August 2024. Members asked about an overhead powerline and were advised that the applicant would need to contact the power company to see if it needed to be moved. The Highways Officer confirmed that the hedgerows were in the applicant's control and that the visibility splay was achievable.

It was moved and duly seconded to approve the application as recommended by the officer.

RESOLVED:	Reason for decision:
that the application be granted consent, subject to the conditions set out in the report which is filed with the signed minutes.	As officer's recommendation as set out in the report which is filed with the signed minutes.

Proposal: Continuation of siting of a hot takeaway food trailer (following conditional approval 18/0778/FUL)

Application Type: Full application

Councillor Tim Van-Rees spoke against the application.
A statement from the applicant's agent was read out.

In response to a suggestion that there should be an additional condition to make the signage bilingual, the Committee was advised that with the existing policy DM12 this could not be made a condition, but that the applicant could be encouraged to do so in the notification. Officers accepted that the existing Welsh language policy in the LDP needed to be reviewed.

It was moved and duly seconded to approve the application as recommended by the officer.

RESOLVED:	Reason for decision:
that the application be granted consent, subject to the conditions set out in the report which is filed with the signed minutes.	As officer's recommendation as set out in the report which is filed with the signed minutes.

Ward Councillor

4th Aug 2022

I would like to call this application in for the planning committee to make the decision please

This building is a huge part of Newtown history. Newtown has lost many of its historic buildings over the years and with the recent collapse and demolition of the chapel people's feelings are running high and want to see the history of the town persevered

The building is full character and is an important part of Newtown for the last 140 years

The town is in an uproar over the removal of this building and as such it needs to be called in as it would be a big loss to the history town and the area and how the town will look.

There are serious concerns regarding bats and residents in the near by location are worried about the site being redeveloped and looking like square boxes with no character.

10th Aug 2022

Re: Demolition notification to include all properties, outbuildings, perimeter walls/fencing and any vegetations (including all gardens, shrubbery and trees). Location: Croesawdy , New Road, Newtown SY16 1AS.

I have no objection to the application, subject to the following conditions, detailed below.

Demolition-phase noise control

Due to the residential nature of the setting, Environmental Protection would recommend that measures are in place to control the level of noise disturbance to neighbouring properties during the demolition phase of the development.

This department would recommend that the demolition-period working hours and delivery times be restricted as follows:

“All works and ancillary operations which are audible at the site boundary shall be carried out only between the following hours:

0800-1800 hrs Monday to Friday

0800-1300 hrs Saturday

At no time on Sundays and Bank Holidays

Deliveries to and removal of plant, equipment, machinery and waste from the site must also

only take place within the permitted hours detailed above.”

Dust control

Environmental Protection would recommend that measures are in place to control the emission of dust from the site during the demolition phase of the development. This department would recommend the following condition:

“Prior to the commencement of demolition work, a dust management plan shall be submitted to, and approved by, the local planning authority. All demolition work shall proceed in accordance with the measures specified in the approved plan.”

Without these controls on noise and dust emissions from the site, I would need to object to the application.

BWRIAD / PROPOSAL: Demolition notification to include all properties, outbuildings, perimeter walls/fencing and any vegetations (including all gardens, shrubbery and trees).

LLEOLIAD / LOCATION: Croesawdy, New Road, Newtown SY16 1AS

Thank you for consulting Cyfoeth Naturiol Cymru / Natural Resources Wales (NRW) about the above, which we received on 02/08/2022.

We have no objection to the proposed development as submitted and provide the following advice:

Protected Species

We note the Ecological Appraisal (Reference: EA 22-06 158.3, By Greenscape Environmental, dated 26/07/2022) confirmed that there were no bats using the building to roost and the tree provided negligible roosting potential for bats. No protected species were observed to be using the site therefore we consider that in respect of Protected Species, the report is satisfactory to inform the planning determination and, therefore, we have no further comment to provide.

Pollution Prevention

All works at the site must be carried out in accordance with GPP5 and PPG6: 'Works and maintenance in or near water' and 'Working at construction and demolition sites' which are available on the following website: <http://www.netregs.org.uk/environmental-topics/pollution-prevention-guidelines-ppgs-and-replacement-series/guidance-for-pollution-prevention-gpps-full-list/>

Other Matters:

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our website <https://naturalresources.wales/guidance-and-advice/business-sectors/planning-and-development/our-role-in-planning-and-development/our-role-in-planning-and-development/?lang=en> We have not considered potential effects on other matters and do not *rule out the potential for the proposed development to affect other interests*.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our website <https://naturalresources.wales/permits-and-permissions/?lang=en> for further details.

If you have any queries on the above, please do not hesitate to contact us.

PCC- Built Heritage Officer

5th Aug 2022

Designation

The property is to be inspected by Cadw to consider for listing on the 17th August.

It is adjacent to Grade II listed St Davids Church (Cadw id; 8143)

Architectural overview

Croesawdy is proposed for demolition. It is a large Victorian house, built between 1880 and 1881 as Bod Forgan by the owner of the Severn Valley Mills, Mr Samuel Morgan. The property was built by Edward William, designed by Architects, Jones and Parke. Jones and Parke also designed the prominent Italianate mansion, Plas y Bryn.

The property is large and imposing, a villa with tower to one side. It is built in the vernacular half-timber style with strong influences of the *Aesthetic Movement*.

On closer inspection, the high quality of the work is apparent. The building sports carved fascia boards, moulded corbels, moulded rafters, and real timber framework rather than false.

The ground floor is of soft red brick in Flemish bond with a square projecting bay in

sandstone. Sandstone details include Gothic lancet tracery to the door and bay window, also a string course between the brick and timber framed elements, this is corbelled in under a drip-lipped torus moulding.

The upper floor presents several decorative timber-framed gables, more than are strictly necessary, in a way that is to impress. The roof is of hand made red clay tiles, in alternating courses of three rows, square and then rounded.

The house is fenestrated with original casements, the vast majority containing very good examples of aesthetic movement glass.

There is a plinth course of dressed blue stone.

Interior, not inspected but photographs show carved wooden panelling in the aesthetic style, archways with inset Milton tiles picturing classical figures. documentary evidence suggests mosaic floor to hallway

The house is the last connection to Severn Valley Mills, which dominated the area to the South West of the building and had a major impact on the development of Newtown and its textile history.

Comment

The property is a prominent feature of the street entering into Newtown via New Road. It is an example of high-end Victorian design, of the Aesthetic movement. It is integral to the history and development of Newtown in the late 19th century.

Cadw have had a formal request to list the property, and will make a visit to inspect the building on the 17th August. It is therefore suggested that the committee defer their decision to allow for this to take place.

Recommendation

Defer decision to after the date of the Cadw inspection.

Representations

A site notice was displayed on 28th July 2022. At the time of writing this report 15 public representations have been received by the Local Planning Authority. These objections relate to the following:

- Heritage value of the property / historical importance
- Future re-development of the site

- “Local Council’s” processing
- Applicant’s decision to propose demolition under the GPDO, rather than as part of a redevelopment planning application.
- Potential for conversion to alternative uses
- Good condition of the building
- Climate change
- Parking issues
- Location of the site notice

Officer Appraisal

Site Location and Description

The application site is located within the Town Council and development boundary area of Newtown. Newtown is identified as a town by the Powys Local Development Plan (2018). The site is located on a corner plot between the A4811, known as New Road, and the U4217, known as Ffordd Croesawdy.

This demolition notification has been submitted by the applicant in line with the

requirements of the Town and Country Planning General Permitted Development Order Schedule 2, Part 31 Class 1995 – Demolition of Buildings. The notification is solely in relation to the demolition of the property known as Croesawdy and associated features such as all outbuildings and perimeter walls/fencing.

It is understood that the site will be redeveloped under a separate planning application which will be made at a later date.

Principle of Development

Part 31, Class A of Schedule 2 of the Town and Country Planning (General Permitted Development) Order 1995 permits the demolition of a building providing that the developer applies to the Local Planning Authority for a determination as to whether the prior approval of the Authority will be required with respect to the method of demolition and any proposed restoration of the site.

In instances where the Local Planning Authority consider that additional information is required in respect of the above, they are required to confirm to the applicant that prior approval will be required. Where the information submitted is acceptable, the Local Planning Authority will confirm that prior approval is not required and therefore permits the developer to exercise permitted development rights under Class A as above. In every instance, consideration must be limited to the method of demolition and proposed site restoration. It is not for the Local Planning Authority to consider the general acceptability of the proposal or the loss of a specific structure/building.

As the demolition is not considered to be urgently necessary the development must apply to the local planning authority for a determination as to whether its prior approval is required.

A notice of the proposed demolition works has been displayed in accordance sub paragraph A2 (b)(iii) of Part 31 of Schedule 2 of the GPDO, at the site by the applicant on the 28th July 2022, which will expire on the 18th August 2022.

This demolition notification seeks to demolish a large Victorian property which measures approximately 28 metres x 21 metres at its furthest points, together with outbuildings associated with the property and the boundary walls/fences.

The notification is accompanied by a method statement which details the schedule of works and the method of demolition. Whilst the method statement does make some reference to dust and noise, these are in the context of protecting workers from the harms of such. No details have been provided in terms of how the impacts of noise, dust and vibrations will be mitigated and controlled in terms of protecting neighbouring properties.

Environmental Protection have been consulted on the notification and have confirmed that they require further information in terms of operating hours and a dust management plan, and that without this information being able to be conditioned, they would object to

the development. Under the Demolition Notification process, the Local Planning Authority are not able to attach conditions unless the notification is determined as requiring prior approval.

The Welsh Governments Condition Circular confirms that hours of construction are governed under other legislation (The Control of Pollution Act 1974 and Environmental Protection Act 1990) and as such, conditions are not always necessary unless the aim is to place tighter restrictions on construction than those that already exist. The submission does not confirm what hours of operation are proposed, and therefore it is considered that further information in this regard is required.

Due to this, it is considered that prior approval is therefore required to assess any impact that the proposed demolition would have upon neighbouring properties in terms of the method of demolition, specifically the impacts from noise and dust.

In terms of the restoration of the site, in the long term it is proposed that the site will be redeveloped with a scheme that will be subject to a separate planning application. In the short term, the submitted method statement confirms that the site will be backfilled and rolled, however the material to be used for this has not been confirmed.

It is therefore considered that further information in respect of the restoration of the site following demolition is required.

Biodiversity

The notification was also accompanied by an Ecological Appraisal by Greenscape Environmental dated 26th July 2022. The Powys Ecologist and Natural Resources Wales (NRW) have been consulted on the notification. No comments have been received from the Powys Ecologist at the time of writing this report.

NRW note that the Ecological Appraisal submitted in support of the notification confirmed that there were no bats using the building to roost and that the tree provided negligible roosting potential for bats. No protected species were observed to be using the site therefore NRW consider that, in respect of Protected Species, the report is satisfactory to inform the planning determination. NRW have confirmed that they do not have any objection to the proposal.

Built Heritage

Several public objections relate to the heritage value of the property. As detailed above, consideration must be limited to the method of demolition and proposed site restoration. It is not for the Local Planning Authority (LPA) to consider the general acceptability of the proposal or the loss of a specific structure/building. Therefore, the LPA are therefore not able to consider any heritage value of a property that is proposed to be demolished under the Town and Country Planning General Permitted Development Order Schedule 2, Part 31 Class 1995 – Demolition of Buildings.

It is understood that a request has been made to Cadw to list the building, and that Cadw are due to inspect the property with the view to make a determination regarding whether or not the property is worthy of listing, however, currently the building is not a listed building. The property is also not within the Conservation Area.

Should Cadw decide to list the building, an application for Listed Building Consent would be required to be submitted if the applicant's wanted to continue with the proposed demolition. This application would have separate considerations.

RECOMMENDATION - Prior Approval Required

In light of the above, Officers consider further information is required to assess the proposal in respect of the method of demolition and restoration of the site. In light of the above and in accordance with Class A, it is considered that prior approval of the Local Planning Authority is required.

1. Further information is required to assess any impact that the proposed demolition would have upon neighbouring properties in terms of the method of demolition, specifically the impacts from noise and dust.
2. Further information is required in respect of the restoration of the site

It is recommended that the determination of this notification be delegated to the Chair of this committee, to allow for the expiration of the site notice to occur.

CYNGOR SIR POWYS COUNTY COUNCIL**PLANNING, TAXI LICENSING AND RIGHTS OF WAY COMMITTEE****18th August 2022****REPORT BY: HEAD OF HIGHWAYS, TRANSPORT & RECYCLING****SUBJECT: 20-001VG Application to register a new Town or Village Green –
method of determining application**

REPORT FOR: DECISION

**20-001VG Application to register a new Town or Village Green on land at Bronllys
– Method of determining application.****Background:**

An application to register a new Town or Village Green on land at Bronllys was received on 20th April 2020. The land affected by the application is located at the former Bronllys County Primary School and is shown on the plan at appendix A. It is the Council's interpretation of the plan supplied with the application and has been confirmed by the applicant as being a correct representation.

The applicant is the Bronllys Green Group, of which by Mr T Hurford is the Chair. The land is owned by Powys County Council.

The application and supporting documents were checked by officers of the Countryside Access and Recreation team and Legal Services. Planning permission has been granted for development on the land. However, the application to register a new Village Green was submitted before the date on which planning consent was granted. As such, it is not considered that the granting of planning permission is a 'Trigger event' that removes the right to apply to register a new Village Green (Commons Act 2006, Schedule 1B.)

Due to case law that came into effect in December 2019, it was necessary to seek an external legal opinion as to whether the application could be accepted. The conclusion was that the application could be processed.

Accordingly, on 14th April 2021, the statutory form six to accept the application as 'duly made' was served on the applicant. It was allotted the reference number 20-001VG, in accordance with statutory requirements.

It was then advertised via a newspaper advertisement and site notices. Notice of the making of the application was served on the applicant, the Council's Housing Services and Legal Services and others and a 6-week period was allowed for receipt of objections and representations.

An objection was received on 21st April 2022, from the Council's Housing Services. The applicant has been given opportunity to comment on this.

The Committee is not yet being asked to consider the evidence in relation to this application, nor to decide whether it should be granted or not. This report is solely to

seek the Committee's view as to how the application should be determined, as there are several options as detailed below.

Options:

Broadly, the law allows Commons Registration Authorities to determine applications to register new Town or Village Greens in one of two ways being:

- To consider the documents provided by the applicant and objector and determine the application solely based on the written evidence; or
- To hold a hearing, so that the applicant and objector and their witnesses can appear and present evidence in person. The Committee can then determine the case based on the written information submitted beforehand and any further information gained during the hearing.

The Council is not required to hold a hearing if an application is opposed. However, the Council must provide opportunity for the applicant to deal with any matters raised by the objector and any other matters that could lead to the Council rejecting the application.

This application has been opposed, bringing into question whether the legal criteria for registration as a Village Green are met. A hearing would allow witnesses to present evidence in person and for the applicant and objector to cross examine the other party and their witnesses. That gives opportunity for further clarity to be sought around the written evidence supplied.

Finally, the Committee could either decide to conduct the hearing itself or appoint an independent Inspector to do so.

Appointing an independent Inspector does not replace the Council's responsibility to determine this case. Rather, an independent Inspector will prepare a report and recommendation, as the basis on which the Committee can then make a decision.

This may be appropriate where, for example, a conflict of interest is identified that could be seen to be prejudicial to the Council's ability to determine the case impartially. The Council does own the land affected by this application, so a recommendation from independent Inspector would offer impartiality.

Holding a hearing incurs costs in terms of a venue, travel and officer time. Referral to an independent Inspector incurs additional costs, in the region of £10,000; these would be met from Service budgets.

Given this, it is proposed by officers that the case be referred to an independent Inspector. Once the Inspector's report and recommendation are available, these will be presented to the Committee as a basis on which to determine the application.

RECOMMENDATION:

- **That application 20-001VG to register a new Town or Village Green on land at Bronllys be referred to an independent Inspector.**

CYNGOR SIR POWYS COUNTY COUNCIL**PLANNING, TAXI LICENSING AND RIGHTS OF WAY COMMITTEE
18 August 2022****REPORT BY: HEAD OF HIGHWAYS, TRANSPORT AND RECYCLING****SUBJECT: Commons Act 2006, Section 15
Application for registration of a new Town or Village
Green on land at Hyssington**

REPORT FOR: DECISION

**Application to register a new Town or Village Green on land at
Hyssington, Community of Churchstoke. (Application no. 21-001VG)****Background:**

1. Powys County Council first received an application to register land at Hyssington as a Town or Village Green in 2011 but that was not in compliance with the relevant legislation.
2. An acceptable application (21-001VG) was received by the Council in 2021 to register a new Village Green on land at Hyssington, under section 15 of the Commons Act 2006.
3. In its role as the Commons Registration Authority (CRA), the Council has a statutory duty to consider and determine a duly made application to register a new Town or Village Green.
4. Powys County Council has a policy in respect of determining these applications. Under this policy, an unopposed application can be determined at a public Committee meeting on the basis of written evidence only. Application 21-001VG has been advertised in accordance with regulations and no objections have been received. Given this, it is reasonable to assume that the content of the user witness evidence is not being questioned hence no specialist legal advice has been sought and it is not considered necessary to hold a "non-statutory inquiry". Therefore the matter can be determined by members of the Planning, Taxi Licensing and Rights of Way Committee.
5. The Committee are reminded that their decision must be based solely on the evidence presented as to whether, on the balance of probabilities, the statutory criteria for registration of a new Town or Village Green are met or not. Any other issues, including those of desirability or community needs, are not legally relevant and cannot be taken into consideration. Acceptance means the land will be registered. Rejection means that no registration may take place. Under the current law, land can only have the legal status of a Town or Village Green upon registration.

The application:

6. A copy of the application form 44 and the accompanying exhibits, can be found at appendices 1 to 4. The valid date of receipt of the application was 10th March 2021. The applicant is Mr R K McLintock and the number allotted to the application by Powys County Council is 21-001VG.
7. The application was accompanied by supporting documentation, as follows:
 - a. Map A: A plan of the land that the applicant is seeking to register;
 - b. Map B: The locality or neighbourhood to which the alleged green relates;
 - c. Thirteen images/photographs;
 - d. User witness evidence, in the form of 17 supporting statements.
8. A Land Registry Search has been undertaken. There is no recorded freehold owner of the land, but the trustees of the Powis Castle Estate hold a qualified title to the mines and minerals in the ground.
9. The application form identifies the area in question as “Hyssington Village Green and Horsewell” and describes its location as “Centre of Hyssington Village, opposite Methodist Chapel and old Post Office”.
10. The boundaries of the land were delineated by way of a red outline on the exhibit marked ‘A’ accompanying the Form 44. It consists of a grassed area which is approximately 0.03 ha (.07 acres) in size. The site encompasses the village notice board, public telephone box, wrought iron bench and the horsewell. The site is bounded to the west by the county road C2056 and to the north by an access road and public footpath. The eastern boundary of the site is a combination of a low stone wall and heavy foliage. The application site is an irregular shape that is best described by reference to the plan produced by the Commons Registration Authority found at appendix 5.

Notice of application:

11. In accordance with statutory requirements, notice of the making of the application was served on Trustees of the Powis Castle Estate. Notices were displayed on site and a newspaper advert was placed in the Powys County Times. Notice was also published on the Council website. The Local Member and Community Council were also notified of the application. A period of 6 weeks from the date of advertising was allowed for receipt of any objections or representations, with the deadline being 22nd January 2022.
12. No responses to the consultation have been received.

The Statutory Requirements:

13. This application has been made under section 15(2) of the Commons Act 2006. The provisions of Section 15(2) apply in circumstances where:
 - (a) a significant number of the inhabitants of any locality, or of any neighbourhood within a locality, have indulged as of right in lawful sports and pastimes on the land for a period of at least 20 years; and
 - (b) they continue to do so at the time of the application.

14. The determination requires the straightforward application of law to the facts. The burden of proving that the Land has become a town or village green lies with the Applicant. The standard of proof is the balance of probabilities.

Locality and Neighbourhood

15. A 'Locality' must be an area recognised in law; it cannot be created by drawing a line on a map. A 'Neighbourhood' need not be a recognised administrative unit but the area chosen must have a degree of cohesiveness.
16. The application is based on long use of the application land by the inhabitants of the area marked on plan B at appendix 2. The applicant has chosen to identify the administrative area of Hyssington electoral ward as the locality.
17. The addresses of all the persons who have submitted a supporting statement have been checked, and apart from Mr Barry Llewellyn and Mr Bryan Llewellyn, it appears that they all reside within the Hyssington Ward. It is noted that the dates of use of the application site by Messrs Llewellyn are outside the 20-year qualifying period. The current residence of Mrs C Edwards is uncertain but the home she refers to in her statement is within the Hyssington electoral Ward.

The relevant 20-year period

18. Section 15 (2) of the 2006 Act applies where there has been use of the land as of right for a period of 20 years and that use was continuing at the time of the application.
19. Use must be continuous in the sense that it has not been interrupted for any significant period of time. However, any periods of statutory closure can be disregarded.
20. The application was signed and dated on the 23rd February 2021 and was received by the Registration Authority on the 10th March 2021. The relevant 20-year period of use for the purposes of this application is the 20 years immediately preceding the application date and would therefore run from 24th February 2001 to 23rd February 2021.
21. It is suggested from the user witness statements that the land has been in use throughout the relevant period of 20 years and indeed continues to be used. It is of no relevance that some statements support use over a much longer period.

Use of the land for lawful sports and pastimes

22. The Defra Guidance to pioneer authorities advises that:
"It was established in the *Sunningwell* case that lawful sports and pastimes is a composite class which includes any activity that can properly be called a sport or a pastime. There is no necessity for any organised sports or

communal activities to have taken place. Solitary and informal kinds of recreation, such as dog walking and children playing (by themselves or with adults), will satisfy the criterion.”

23. The activities need to have taken place on the land subject of the application.
24. Courts have interpreted ‘lawful’ as excluding all activities which would be illegal in the sense of amounting to criminal offences (whether or not they caused damage to the owner’s property.)
25. The evidence supplied implies that the land has been used for a variety of informal recreation activities such as children playing, picnicking, community get togethers and carol singing.

Use ‘as of right’

26. Use ‘as of right’ has a particular legal meaning and means that use is made openly – i.e. without force, without secrecy and without permission.
27. The use should be shown to have been of such a character, degree and frequency as to indicate an assertion by the claimant of a continuous right, and of a right of the measure of the right claimed.
28. Use is not ‘as of right’ if users already have a statutory or other legal right to use the land. Use is then ‘by right’ or ‘of right’.
29. There is no indication that use of the land was carried out by stealth as it was done openly and without secrecy. Likewise, there is no suggestion that the use of the land was by force as there is open access to the land and this use has not been challenged.

Use by a significant number of inhabitants of the locality

30. ‘Significant’ does not mean considerable or substantial. What matters is that the number of people using the land in question has to be sufficient to indicate that their use of the land signifies that it is in general use by the local community for informal recreation, rather than occasional use by individuals as trespassers. *McAlpine Homes [2002]*
31. ‘Significant’ implies a number of users relative to the size of the population of the relevant locality or neighbourhood.
32. The population of the Hyssington electoral ward administrative area was not provided specifically in the 2011 census information. The total population for the Churchstoke Community Council area was at that time 1691 and the Council’s Business Analytics and Research unit estimate the population of the Hyssington electoral ward to be in the region of 250 to 300 people.
33. The application is supported by user evidence statements from 18 residents, only 15 of whom lived in the locality at the time of the application or at some point during the qualifying twenty-year period. The evidence

from respondents from outside the locality does not carry as much weight as that of the inhabitants of the locality.

Options:

Following the presentation of evidence and the opportunity to examine the written evidence provided, the Committee is required to reach one of the following conclusions:

(1) On the basis that the land in question satisfies ALL the statutory requirements for registration as a village green:

That the application to register the parcel of land at Hyssington as shown hatched red on Notice Plan 21-001VG, be accepted and the land registered as a 'new' town or village green;

OR:

(2) On the basis that the land in question fails to satisfy one or more of the statutory requirements for registration as a village green:

That the application to register the parcel of land at Hyssington as shown hatched red on Notice Plan 21-001VG, be rejected.

Officers of Countryside Access and Legal Services have considered the evidence in the light of the statute and case law. Having done so it is considered that the legal criteria is met.

RECOMMENDATION: That the application to register the parcel of land at Hyssington as shown on Notice Plan (21-001VG), be accepted and that the land be formally registered as a Village Green.

Hi Gary

Do you still need photos of village green usage? If so we did some publicity shots for Rapsquillion on the green a few years ago and there is also a picture of the Bull of Bagbury procession going past the green. May be of use?

Hi Bob,

I've attached a couple of photos of the Village Green, the first two from 1989 (I think), part of the Bank Holiday Flower Festival, and the third one is the bench being installed in 2002. I'll also send you a page from an old booklet about Hyssington and the Green, as soon as I can find it... I'm putting out a letter and a copy of the form we agreed on Facebook and the notice boards today asking for people to submit their stories and photographs, so fingers crossed!

SUPPORTING STATEMENT SHOWING USE OF HYSSINGTON VILLAGE GREEN AS A COMMUNITY SPACE

Name: Mr/Mrs/Ms Dr Simon Curran

Address: PINFOLD

HYSSINGTON SY15 6AT

Occupation: G.P.

Description of Area: HYSSINGTON VILLAGE GREEN

For what purposes have you used the area as a Village Green?

IN THE 35 YEARS I HAVE LIVED IN HYSSINGTON I HAVE BEEN A FREQUENT VISITOR TO THE VILLAGE GREEN OVER THE LAST 35 YEARS. IT IS THE EPICENTRE OF THE VILLAGE WITH VILLAGE PUMP, LISTED TELEPHONE BOX AND A MUCH USED MEMORIAL BENCH PLACED THERE NEARLY 20 YEARS AGO TO CELEBRATE THE LIFE OF A POPULAR YOUNG FARMER WHO DIED SUDDENLY AND TRAGICALLY. IT IS A PLACE OF PEACE AND CONTEMPLATION AND A PLACE TO CASUALLY MEET NEIGHBOURS AS THEY GO ABOUT THEIR BUSINESS. THERE IS NO DOUBT THAT OUR VILLAGE GREEN IS, AND ALWAYS HAS BEEN, THE EPITOME OF A VILLAGE GREEN.

During which years have you used this area as a Village Green? 1985 - 2020

For what purposes have you personally known others to use the area as a Village Green?

A PLACE FOR INFORMAL SOCIAL GATHERING AS IT IS NOT BIG ENOUGH FOR MORE FORMAL USE. A PLACE TO PLAY, TO MEET, TO CONTEMPLATE AND TO REMEMBER.

Description of Area: VILLAGE LOOKS REALLY NICE WITH GREEN AT

..... THE CENTRE.

For what purposes have you used the area as a Village Green?

I've used the green for events at the chapel and my children have played there, catching tadpoles.

We did have a maypole on the green one year.

It was great when we tidied up the Green as it looked so nice when we came out of chapel. I was the one in the village who pushed for it to be tidied up back in the 1960's or 70's.

I also was involved in planting daffodils to brighten up the centre of the village along the bank on the green by the horsewell.

Description of Area: The green is a focal point for Hyssington

..... village and when well looked after is a very attractive feature.

For what purposes have you used the area as a Village Green?

Recently (2016) when the local community came together to help clean up the green we had a community get together and I served tea and biscuits to the group.

I've also been involved in carol singing on the green and back when the telephone box routed via an operator for telephone calls, we called the operator and sang happy Christmas to her.

As a child I played "tick-tac" on the green and looked for tadpoles in the horsewell and stream.

In 2013 we had a moving nativity in the village and had cards under the cherry tree on the green and the cherry tree has been decorated with lights at Christmas time.

Description of Area:

For what purposes have you used the area as a Village Green?

A local farmer, neighbour & friend, died under tragic circumstances. 3 local couples, his class friends, did a fund raise to place a bench on the green in remembrance of him.

As children in the local school, we were always playing around the horse well catching tadpoles.

my memories of the Hyssington
village green.

my home was at woodgate I
attended Sunday school in the Methodist
Chapel opposite the village green
after Sunday school we would play
on the green before walking home

on August the 4th 1975 my
mothers funeral was held in the Methodist
Chapel people who attended were
standing on the village green shading
from the heat under the cherry tree.

In August 1989 the church
held a flower festival a maypole was
placed on the village green it was a
lovely feature.

The village green has always
been a part of Hyssington
