## **QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS**

Response by the Portfolio Holder:

I can confirm that we do have a dedicated and permanent Climate Change Officer Post which is currently part of a wider Regeneration team restructure. The team are currently being consulted and posts will then be filled or recruited to over the next 4-6 weeks. As part of the wider restructure a further position has been included within the structure to take a lead on economic strategy and climate action. All posts within the team have also been revised to embed climate action and sustainability at the heart of all economic regeneration work and ensure we focus on climate action across all areas of work.

At the recent Climate Action Project Board the engagement responses were acknowledged as a fantastic opportunity for a wide ranging source of support and knowledge. The areas were considered and each priority area in the strategy now has an identified lead within the organisation, who are considering our draft action plan and a proposal on how the offers of support will be aligned going forward. Leads will update and plans will be considered at our next meeting. All those offering support have been thanked by the Head of Service for Economy and Digital with confirmation that we will be in touch once our plans are developed across the workstreams.
