QUESTIONS AT ANY TIME TO CABINET PORTFOLIO HOLDERS

Question From:	County Councillor Glyn Preston
Subject:	Use of glyphosate
Question To:	County Councillor Jackie Charlton Cabinet Member for a Greener Powys

Question:

Glyphosate, commonly known by its original trade name Roundup, is the world's most widely used herbicide (weedkiller). Glyphosate has direct and indirect effects on the environment. Indirect impacts on birds and other animals occur due to the wiping out of weeds and wild flowers, destroying habitats and food supplies.

I'd like to ask the Portfolio holder the following:

1. What is the current PCC policy on the use of glyphosate pesticides?
2. What progress has PCC made in reducing the use of glyphosate pesticides?
3. Is PCC's ambition to ban the use of glyphosate pesticides in the future?
