

Additional clarification from Powys Highways Department in respect of additional 3rd party comments;

Thank you for letting me know about these comments. As you will be aware the plans submitted are indicative only and are not detailed engineering drawings. However, one thing that is certain is that the existing Class III highway is narrow without any passing places and has no footways for pedestrians. The proposal to widen the carriageway and provide a footway is a significant benefit to highway safety.

Since the proposals will need to be considered fully at the detailed application stage a full assessment will be carried out at that time once the detailed drawings have been submitted. The assessment will include footway and carriageway widths, drainage on the carriageway together with the means for accommodating the mobility needs of all that may use the infrastructure.

You will note that our first two conditions (10 & 11) are directly related to the submission of detailed drawings and the construction of the improvements. Overall, I consider that these improvements will be a benefit to the community at large that use this section of highway.

RECOMMENDATION

Having carefully considered the proposed development, Officers consider that the proposal broadly complies with planning policy. Whilst a departure from the development plan, in this instance, the provision of housing is considered to outweigh the plan and therefore justifies the grant of consent as an exception to normal housing policies. The recommendation is therefore one of conditional approval subject to conditions.

1. Details of the access, appearance, landscaping, layout, and scale, (hereinafter called "the reserved matters") shall be submitted to and approved in writing by the local planning authority before any development begins and the development shall be carried out as approved.
2. Any application for approval of the reserved matters shall be made to the local planning authority not later than three years from the date of this permission.
3. The development shall begin either before the expiration of five years from the date of this permission or before the expiration of two years from the date of approval of the last of the reserved matters to be approved, whichever is the later.
4. The development shall be carried out in accordance with the plans stamped as approved on xxxx in so far as the extent of the application site is drawn and the access point onto the unclassified highway (drawing no: RPP/RC-JOB58-03 Rev C).
5. Prior to commencement of development the development shall not begin until a scheme for the provision of affordable housing as part of the development has been submitted to and approved in writing by the local planning authority. The affordable housing shall be provided in accordance with the approved scheme and shall meet the definition of

affordable housing in Annex B of TAN 2 or any future guidance that replaces it. The scheme shall include:

- i) the numbers, type, tenure and location on the site of the affordable housing provision to be made which shall consist of not less than 20% affordable dwellings;
- ii) the timing of the construction of the affordable housing and its phasing in relation to the occupancy of the market housing;
- iii) the arrangements for the transfer of the affordable housing to an affordable housing provider [or the management of the affordable housing (if no RSL involved)];
- iv) the arrangements to ensure that such provision is affordable for both first and subsequent occupiers of the affordable housing; and
- v) the occupancy criteria to be used for determining the identity of occupiers of the affordable housing and the means by which such occupancy criteria shall be enforced.

6. The affordable dwelling shall have a maximum gross floor area of 130 square metres (measured internally and including garages where designed as an integral part of the dwelling) and notwithstanding the provisions of schedule 2, part 1, classes A, B, C and E of the Town and Country Planning (General Permitted Development) Order 1995 (as amended for Wales) (or any order revoking and re-enacting that order with or without modification), the affordable dwelling shall not be subject to extensions, roof alterations and buildings other than those expressly authorised by the reserved matters approval.

7. Upon the submission of the reserved matters referred to within Conditions 1 and 2, the landscaping details shall include indications of all existing trees (including spread and species) and hedgerows on the land, identify those to be retained and set out measures for their protection throughout the course of development.

8. All planting, seeding or turfing comprised in the approved details of landscaping shall be carried out in the first planting and seeding seasons following the occupation of the buildings or the completion of the development, whichever is the sooner, and any trees or plants which within a period of 5 years from the completion of the development die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species, unless the Local Planning Authority gives written consent to any variation. If any plants fail more than once they shall continue to be replaced on an annual basis until the end of the 5 year defects period.

9. Prior to the construction of the dwellings hereby approved details and/or samples of the materials to be used in the construction of the external surfaces of the dwellings shall be submitted to and approved in writing by the local planning authority. The development shall be carried out in accordance with the approved details.

10. Prior to the commencement of development detailed engineering drawings for a footway link along the Class III C2205 & B4580, and widening along the Class III C2205 and associated works, shall be submitted to and approved in writing by the Local Planning Authority.

11. Prior to any works commencing on the development site, all Highway Improvements, referred to in condition 10, shall be fully completed and approved in writing by the Local Planning Authority. The approved works shall be retained for their designated use for as long as the development hereby permitted remains in existence.

12. Prior to the occupation of the dwelling any entrance gates shall be set constructed so as to be incapable of opening towards the highway and shall be retained in this position and form of construction for as long as the dwelling/development hereby permitted remains in existence.

14. The gradient of the access shall be constructed so as not to exceed 1 in 15 for the first 10 metres measured from edge of the adjoining carriageway along the centre line of the access and shall be retained at this gradient for as long as the development remains in existence.

13. The centre line of the first 10 metres of the access road measured from the edge of the adjoining carriageway shall be constructed at right angles to that edge of the said carriageway and be retained at that angle for as long as the development remains in existence.

14. Before any other development commences the access shall be constructed so that there is clear visibility from a point 1.05 metres above ground level at the centre of the access and 2.4 metres distant from the edge of the adjoining carriageway, to points 0.6 metres above ground level at the edge of the adjoining carriageway and 43 metres distant in each direction measured from the centre of the access along the edge of the adjoining carriageway. Nothing shall be planted, erected or allowed to grow on the area(s) of land so formed that would obstruct the visibility and the visibility shall be maintained free from obstruction for as long as the development hereby permitted remains in existence.

15. Before any other development commences the access shall be constructed so that there is clear visibility from a point 1.05 metres above ground level at the centre of the access and 2.4 metres distant from the edge of the adjoining carriageway, to points 0.6 metres above ground level at the edge of the adjoining carriageway and 43 metres distant in each direction measured from the centre of the access along the edge of the adjoining carriageway. Nothing shall be planted, erected or allowed to grow on the area(s) of land so formed that would obstruct the visibility and the visibility shall be maintained free from obstruction for as long as the development hereby permitted remains in existence.

16. Prior to the occupation of any dwelling, provision shall be made within the curtilage of the site for the parking of not less than one car per bedroom excluding any garage space provided together with a turning space such that all vehicles serving the site may both enter and leave the site in a forward gear. The parking and turning areas shall be retained for their designated use for as long as the development hereby permitted remains in existence.

17. Before any other development commences provision shall be made within the curtilage of the site for the parking of all construction vehicles together with a vehicle turning area. This parking and turning area shall be constructed to a depth of 0.4 metres in crusher run or sub-base and maintained free from obstruction at all times such that all vehicles serving the site shall park within the site and both enter and leave the site in a forward gear for the duration of the construction of the development.

18. The width of the access carriageway, constructed as per above conditions, shall be not less than 5.5 metres for a minimum distance of 10 metres along the access measured

from the adjoining edge of carriageway of the county highway and shall be maintained at this width for as long as the development remains in existence.

19. Prior to the occupation of the development a radius of 6 metres shall be provided from the carriageway of the county highway on each side of the access to the development site and shall be maintained for as long as the development remains in existence.

20. All surface water run-off is to be collected and discharged via a piped system to a soakaway located within the site no less than 6 metres from the highway. This system shall be retained and maintained for as long as the development remains in existence.

21. Upon formation of the visibility splays as detailed in the above conditions the centreline of any new or relocated hedge should be positioned not less than 1.0 metre to the rear of the visibility splay and retained in this position as long as the development remains in existence.

22. No storm water drainage from the site shall be allowed to discharge onto the county highway.

Reasons

1. To enable the Local Planning Authority to exercise proper control over the development in accordance with Section 92 of the Town and Country Planning Act 1990.

2. Required to be imposed by Section 92 of the Town and Country Planning Act 1990.

3. Required to be imposed by Section 92 of the Town and Country Planning Act 1990.

4. To ensure adherence to the plans stamped as approved in the interests of clarity and a satisfactory development.

5. In order to ensure the provision of affordable housing in accordance with Policy HP7 of the Powys Unitary Development Plan (2010) and the Affordable Housing for Local Needs Supplementary Planning Guidance (2011).

6. In order to ensure the provision of affordable housing in accordance with Policy HP7 of the Powys Unitary Development Plan (2010) and the Affordable Housing for Local Needs Supplementary Planning Guidance (2011).

7. To ensure a satisfactory and well planned development, to ensure protection is afforded to mature trees on the southern boundary of the site and to preserve and enhance the quality of the environment, visual amenity and privacy in accordance with Policies GP1 and ENV2 of the Powys Unitary Development Plan (2010).

8. To ensure a satisfactory and well planned development and to preserve and enhance the quality of the environment, visual amenity and privacy in accordance with Policies GP1 and ENV2 of the Powys Unitary Development Plan (2010).

9. In the interests of the visual amenity of the area and to ensure the satisfactory appearance of the buildings in accordance with policies GP1 and GP3 of the Powys Unitary Development Plan and the Councils Residential Design Guide.

10. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.

11. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.

12. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.

13. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
14. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
15. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
16. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
17. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
18. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
19. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
20. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
21. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
22. In the interests of highway safety and in accordance with the provisions of Powys UDP Policy GP1 and GP4.
