

POWYS PUBLIC SERVICES BOARD

<p>Step(s)</p>	<p>11) Implement more effective structures and processes that enable multiagency community focused response to wellbeing, early help and support.</p> <p>12) Develop our organisations’ capacity to improve emotional health and well-being within all our communities.</p>
<p>PSB lead</p>	<p>Carol Shillabeer</p>
<p>Partners/stakeholders involved</p> <p>Interested parties identified during the engagement or who could help deliver?</p>	<p>The possibility of delivering steps 11 and 12 of the PSB Well-being Plan as part of the North Powys development of a new model of care is currently being explored. This work falls under the oversight of the Powys Regional Partnership Board (RPB) who would be the interested party who could help to deliver these steps.</p> <p>The ambition set out in steps 11 and 12 fits closely with the aims of the North Powys project to develop a new integrated model of care which improves the health and wellbeing outcomes for the population. The model is designed to be generalisable across Powys, it will have multiagency involvement, and aligning with steps 11 and 12 will meet the aim not creating further groups and meetings.</p>
<p>Scope of the step</p> <p>What needs to be done to deliver the step?</p>	<p>Delivery of steps 11 and 12 will need to be written into the terms of reference for the new model of care to ensure this is a core part of what the project seeks to achieve.</p>
<p>Where are we now?</p> <p>Current position, knowledge, information</p>	<p>At this stage, aligning steps 11 and 12 with the development of a new model of care in North Powys is a proposal. Further work is required to ensure the aims set out in the two steps can be properly achieved through this alignment, and that PSB members can feel assured regarding oversight and delivery. Similarly, RPB members need to be in support of any changes to the objectives set out in the new model of care.</p>
<p>Activity to date</p> <p>What has been done already?</p>	<p>The concept of a new model of care, delivered through Regional Rural Centres and Community Hubs is currently in the first phase of development. A number of workstreams are either planned or underway, including a Model of Care workstream. It is suggested that the remit and membership of this proposed workstream is widened to also take forward work contained in steps 11 and 12, accommodating the wider organisational interests represented by PSB members.</p>
<p>Activity for coming 3 months</p> <p>What do you plan to do?</p>	<p>Over the next 3 months it will be confirmed whether the approach described above is feasible or not, and the arrangements to be put in place provide assurance on progress to the PSB.</p>

POWYS PUBLIC SERVICES BOARD

Barriers Is something/someone getting in the way?	Formally incorporating steps 11 and 12 into the new model of care may be hampered if work has commenced to a significant degree. Terms of reference and/or the remit of workstreams may be agreed which would make alignment difficult. This will be explored over the next few months.
