REPORT UPDATE

Additional Correspondence received from Local Member:

Dear planning committee,

Many thanks for reviewing planning application P/2018/0470 in committee today. Sorry I can't be there as I am away on a family holiday.

Regarding the application, over the last couple of years I have met with the applicant and heard their views and I have met with local residents for and against this application and heard their views. I have had a tour of the site and the surrounding area and have a good understanding of the application proposed.

Due to the different issues raised I believe as the local member it only fair that the applicant and those against the application have their views heard.

I want a fair consideration of whether this application is approved or not approved.
