

Powys County Council Reserves Policy

Introduction

This policy establishes a framework within which decisions will be made regarding the level of reserves held by the Council and the purposes for which they will be maintained and used.

The requirement for Financial Reserves is acknowledged in statute. Sections 32 and 43 of the Local Government Finance Act 1992 requires authorities to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement.

There are also a range of safeguards in place that help prevent local authorities over committing themselves financially. These include:

- The balanced budget requirement
- Chief finance officers' duty to report on the robustness of estimates and adequacy of reserves when the authority is considering its budget requirement (Section 25 of the Local Government Act 2003)
- The legislative requirement for each local authority to make arrangements for the proper administration of their financial affairs and that the chief finance officer has responsibility for the administration of those affairs as set out in Section 151 of the Local Government Act 1972.
- The requirements of the Prudential Code.

These requirements are reinforced by section 114 of the Local Government Finance Act 1988 which requires the chief financial officer to report to all the authority's councillors if there is or is likely to be unlawful expenditure or an unbalanced budget. This would include situations where reserves have become seriously depleted and it is forecast that the Authority will not have resources to meet its expenditure in a particular financial year.

Definitions

Reserves are sums of money held by the Council to meet future expenditure.

Types of Reserve

General Fund Reserves – to meet short term, unforeseeable expenditure arising from unexpected events or emergencies. To enable significant changes in resources or expenditure to be properly managed over the period of the Medium Term Financial Strategy.

Earmarked and Specific Reserves – to meet known or predicted requirements, or established by statute.

Unusable reserves – these arise out of the interaction of legislation and proper accounting practice either to store revaluation gains or as adjustment accounts to reconcile requirements driven by reporting standards to statutory requirements. These reserves are not backed by resources and cannot be used for any other purpose.

Reserves should not be held without a clear purpose.

General Fund Reserves

In assessing the appropriate level of reserves the Authority will ensure that the reserves are not only adequate but also necessary and will be appropriate for the risk (both internal and external) to which it is exposed.

In assessing its financial risk the Chartered Institute of Public Finance and Accountancy (CIPFA) has issued guidance on the factors that should be considered:

- Budget Assumption for inflation and interest rates
- Estimates of the level and timing of capital receipts
- The treatment of demand led pressures
- The Authorities track record in budget and financial management
- Treatment of planned efficiencies/savings
- The financial risk inherent in any significant new funding partnerships, major outsourcing and capital developments
- The likely level of Government support to deal with major unforeseen events
- The adequacy of the authority's Insurance arrangements
- The Authority's virement and end of year procedures in relation to budget under and over spends
- The general financial climate and future funding assumptions

The risk assessment will be reviewed annually.

The appropriate level of General Fund Reserves will be determined annually as part of the Budget Setting process and Medium Term Financial Strategy and will be subject to approval by the Cabinet and Full Council.

The Financial Strategy will set out the level of planned reserve balances including financial arrangements for any replenishing of reserves, it will also confirm acceptable thresholds above and below the balance. If the balance falls outside of these thresholds a plan will be agreed by Cabinet to restore balances to the appropriate level.

Earmarked and Specific Reserves

These are required for specific purposes and are a means of building up funds to meet known or predicted liabilities. By nature these reserves balances do not have minimum and maximum thresholds. Creation of such reserves must be approved by the Strategic Director of Resources.

Balances should be reasonable for the purpose held and must be used for the item for which they have been set aside, if circumstances arise to which the reserve is no longer required for its original purpose they will transfer to the General Fund Reserve.

Ringfenced Reserves

Housing Revenue Account

The Housing Revenue Account is ringfenced this means that HRA resources may only be expended with the HRA. Councils are not allowed to transfer resources between the HRA and their general funds. The Balance on the HRA is held in a ringfenced reserve.

Schools Reserves

Schools are able to carry forward surplus and deficit balances from one year to the next and utilise these balances for managing changes in pupil numbers and funding, or the funding of projects and future liabilities. The balances are held by individual schools, they are not for general Council use. Guidance on the level of balances held, and possible clawback of funds by the Authority is documented within section 4 of Powys' Scheme for the Financing of Schools.

Reporting of Reserves

The balances and movement of all reserves is required to be reported within the Authorities Annual Statement of Accounts.

The balance held and projected movement of useable reserves is reported monthly as part of the Budget Monitoring Report to Cabinet, this includes the level of reserves held against the threshold set for the year.
