[Research](#) has shown that misconceptions regarding moving and handling, insufficient knowledge of specialist equipment, and an inflexible approach to care can lead to too much generalisation regarding the perceived need for two carers as opposed to one. There is evidence to suggest that a greater involvement of occupational therapists in the right-sizing of care packages through strengths based reviews can help to optimise peoples' independence, with a resulting saving in domiciliary care costs.

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
There is well established evidence that an investment in occupational therapy resource can deliver significant returns in terms of both cost savings, and cost avoidance, if OTs are used to review new and existing double handed care packages. The proposal has the added benefit of releasing care capacity. This extra capacity can then be used in a more targeted way, which will assist with our ongoing efforts of discharging people from hospital in a timely manner.

<b>Outline Summary / Description of Proposal</b>							
Working in partnership with service providers to review the way services are delivered in Powys to ensure that such services are accessible, of the right quality and at an affordable cost for all people who need to arrange their support. Alongside this, and to generate further efficiencies we will continue to promote reablement and recovery throughout all services to ensure that resulting support packages are appropriate. Our commissioning will be underpinned by a set of clear principles that support the health and care priorities within our Vision 2025:							
<ul style="list-style-type: none"> <li>- Most cost effective means of achieving outcomes</li> <li>- Utilising the most appropriate resource to meet needs</li> <li>- Ensuring that our commissioned services promote wellbeing as set out by Welsh Government to tangible effect</li> <li>- Stimulating a diverse range of appropriate services and organisations (including social enterprises) to ensure that the market for care in Powys remains vibrant and sustainable.</li> </ul>

According to the Joint Commissioning Strategy for Adults with a Learning Disability 2015 – 2020:

*‘Powys has over 90 people in placements outside of the county and enabling the people who wish to return to the county is a key local ambition because they can be extremely expensive, hard to monitor as they are usually at a distance from the commissioning authority and can be of low quality.*

*‘Furthermore, it is felt that the greater the reliance on specialist services, the more likely it is that competency to manage behaviours that challenge within general learning disability services decreases and specialist services have to respond to an increasing volume of referrals.’*

Our workforce strategy has a clear priority of ensuring that we have the right workforce which is stable and sustainable (priority 1, Adult Services Workforce Strategy). This means that we need the right people with the right skills in the right role, to effectively support adults in Powys who require our support.

Our business intelligence data allows us to better understand future demand for care in Powys and as a result, we need to design, remodel and implement any changes to adult social care structures to meet these demands.

<b>Proposal</b>	Reducing small systems needing support				
<b>Outline Summary / Description of Proposal</b>					
Through the ICT system rationalisation/modernisation programme we will continue to decommission and/or negotiate the councils system contracts resulting in a reduction of system costs. This proposal will look to increase the current programme of work in order to make the additional savings required. This will require additional resource and re-prioritisation of ICT's existing work plan.

ICT Resource to implement change (systems to rationalise/decommission)	6	Monitor resource requirements through effective Project plans, highlight changes in pace of change to the organisation	3
Lack of dedicated service area resource to support the change to their system	6	Awareness raising of the benefit of the work will be key	3
Lack of engagement and appetite of service areas to review current systems and support change	6	Ensure all those service areas affected are communicated/engaged with to support the change	3
Other planned 'digital/ICT work' will need to be postponed to focus on this additional work- this may have an impact on other service areas savings.	6	Re-prioritisation of current ICT work plan to effectively identify activity that can be re-prioritised with the least impact	3

<b>Proposal</b>	Creating efficiencies by automating the management of Freedom of Information requests				
<b>Outline Summary / Description of Proposal</b>					
The Council receives over 1,000 information requests a year, these need to be logged, acknowledged, and tasked appropriately to enable the provision of information enabling a response to be issued, including the application of relevant exemptions to disclosure. The process of managing requests requires monitoring to ensure that the information is supplied to the Information Compliance team to enable the drafting of responses, and that requests are handled in line with the specific legislation, and within timescales.					
The proposal explores the feasibility of developing automated processes and workflows to record requests, manage the process, and enable relevant reporting

<b>Service Area</b>	Vision 2025 - Transformation Programme <b>Digital Powys Programme</b>	<b>Head of Service</b>	Diane Reynolds	<b>Director</b>	Nigel Brinn	<b>Portfolio Holder</b>	Cllr Graham Breeze
<b>Proposal</b>		To deliver against the outcomes in the Digital Powys Strategy and Business Case.					
<b>Outline Summary / Description of Proposal</b>							

The way we work and live today is evolving fast, with digital technology having an impact on all our lives. Our resident's lives are changing and many public service users now expect access 24/7 to our services and that number is increasing all the time. It is widely recognised that public services need to radically transform to keep pace with the digital evolution and customer expectations as well as finding new ways to add value.

There is a strong case for transformation in Powys County Council. Demographic trends, rurality, financial pressures, a need to improve performance in key service areas are key drivers for change and all can to some extent be mitigated through the effective use of digital tools and technologies.

With reduced funding over the next 3 years and greater demand for services, we need to be innovative in the solutions we design for the future, harnessing the power of the data revolution and digital technology. Our Digital Transformation Programme will drive delivery of digital solutions whilst providing much needed financial savings. The programme has 5 key work streams (Customer Centred Digital solutions; Digital Workforce; Digital Infrastructure and Systems; Information Excellence and Digital Places)

This Impact Assessment is an aide in the decision-making process to move forward with the Councils "Digital Powys" Programme – Embracing digital technologies to improve our customers' experience. The programme is supported by the Digital Powys Strategy and a full Business Case. The programme aims to deliver the following:-

- We want to ensure our processes and interactions are designed around our customers and what they need.
- We want to develop our capability and capacity, creating leaders that are digitally focussed and develop the digital capability in our workforce and communities.
- We want to provide a fit, robust and safe infrastructure to support digital capability and an agile workplace.
- We want to use digital capabilities in decision making to enable value-driven choices, working closer with our partners and making our information open and accessible wherever possible.
- We want to work with stakeholders to create location – specific digital services across Powys to connect and support businesses, communities and individuals.
- We want to work with partners to maximise joint digital opportunities and improve data sharing capacity and capability for the benefit of our, businesses, communities and citizens.

Digital solutions will enhance our service offer alongside our traditional methods of access, which we will continue to offer, this will be important to many of our customers who perhaps do not have access to digital technology or would rather engage with us in person or over the phone.

Technology can enhance the lives of our residents, including the most vulnerable. As technology changes at pace we do not want to risk our residents becoming isolated and disadvantaged, we need to work with our communities to bridge this gap and ensure our residents and businesses are ready to maximise the potential of digital transformation.

The below statistics give an insight into digital trends.

**National stats:**

1. 90% of jobs nationally require digital skills to some degree
2. 65% of children entering primary school today will be working in roles that do not yet exist
3. 23% (12.6 million) of the UK population lacking basic digital skills. Of these, 49% are disabled, 63% are over 75 and 60% have no formal education qualifications
4. 58% of adults in Wales access the internet
5. Internet users in Wales spent an average of 21 hours online per week in 2016
6. 80.6% of Powys has superfast broadband coverage (lowest in Wales)
7. 28% of premises in Powys are unable to receive 10 mb/s (it would take an hour to download a HD quality movie)

**Powys CC stats:**

1. Reach 13.2k followers on our Twitter account
2. Reach 10.9k followers on our facebook account (69% women / 30% men, 25 – 54 is most popular age group)
3. 55% people access our website using a mobile device or tablet
4. 92,010 views for bin collections, 59,233 checking for emergency school closures, 47,629 school term dates and 45,608 searching for jobs (18/10/2018 - 18/10/19)
5. 26% people have a My Powys account (18 and over)

4. Impact on Other Service Areas

**Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?)  
PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY**

The Digital Strategy and the supporting Business Case is a council wide document and will have potential implications all service areas.

The programme has an EMT Senior Responsible Owner (SRO) who is the owner of the overall project.

The project is chaired by the SRO and will include representatives from front-line and corporate services. The project will have a lead project manager. The project board will consist of officers only, with accountability to elected members through the Transformation Board, the scrutiny will be provided by this board and the council scrutiny arrangements.

See above link to stakeholder and engagement plan.

**Our Vision: DIGITAL POWYS – Embracing digital technologies to improve our customers' experience**

Digital Powys is the Council's digital transformation programme, one of eight programmes within the Council's Vision 2025 Transformation Programme. The Programme is underpinned by the Council's Digital Powys strategy.

Like many councils, Powys County Council is facing significant challenges in meeting changing customer expectations, managing increasing demand for services and modernising working practices whilst delivering against an increasing financial constraint. In the face of these challenges the Council needs to transform the way it works to provide high quality services and digital technology has a significant role to play.

With reduced funding over the next 3 years and greater demand for services, we need to be innovative in the solutions we design for the future, harnessing the power of the data revolution and digital technology. Our Digital Transformation Programme will drive delivery of digital solutions whilst providing financial savings.

The programme has 5 key work streams (Customer Centred Digital solutions; Digital Workforce; Digital Infrastructure and Systems; Information Excellence and Digital Places) which will deliver our transformation aims of ensuring Powys is a place where people can connect, communicate and access public services they need and want quickly and efficiently. We will be working with our partners to support the more vulnerable in our society to use digital tools and technologies that can help them stay independent. Equality of access is important and for those unable to access digital technologies we will continue to provide the traditional methods of communication, as well as exploring other communication methods to support our most vulnerable.

We will work with partners to improve connectivity across the county so that both local communities and businesses can thrive.

The programme will follow four key guiding principles for the project – customer centred, Digital first, safe and secure and working with our partners.

How does the proposal impact on the following areas:-

Council priorities

The strategy supports and helps to deliver the councils Vision 2025 (Corporate Improvement Plan), which has four key themes – the economy, health and well-being, lifelong learning and residents and communities.

Welsh Government Well-Being Goals

The proposal overall will have a positive impact on the Well-Being goals.

The Council's key guiding principles

The proposal overall will have a positive impact on the Councils key guiding principles.

<b>Proposal</b>	<b>Reduction in Contract costs (System Rationalisation Programme) 75k</b>						
<b>Outline Summary / Description of Proposal</b>							
<b>Reduction in Contract costs (System Rationalisation Programme)</b>							
<p>Since 2015 Powys County Council has been rationalising their ICT systems via the System rationalisation Programme. This programme has, to date led to the decommissioning of over 60 systems, along with a reduction of a number of contract costs delivering savings to the organisation.</p> <p>Alongside System Rationalisation ICT have concentrated heavily on Contract Negotiation to remove costs where possible.</p> <p>This proposal continues the above work and it is estimated that the ICT budget funding many of these corporate contracts can be reduced by £75k year for 21/22.</p>

### 4. Impact on Other Service Areas

**Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?)  
PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY**

Yes. The proposal to continue to reduce contract costs through the work within the System Rationalisation Programme does and will impact on other services areas (demonstrating a positive impact). The service areas that are utilising the systems that we are either rationalising or de-commissioning will be impacted, however before work commences, all effected services areas are consulted with and are engaged in the process.

Council Priority	How does the proposal impact on this priority?	<b>IMPACT</b> Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	<b>IMPACT AFTER MITIGATION</b> Please select from drop down box below
<b>The Economy</b> We will develop a vibrant economy	Financial – reduced funding may place currently supported arts organisations at risk of being unsustainable resulting in job losses, reduced local procurement of goods and services, tourism offer and sales / income generation.	Poor	Maximise opportunities for securing additional external funding in support of arts service delivery in partnership with arts sector partners. Optimise the leverage potential of arts commissioning budget in successfully accessing external funding for strategic arts initiatives delivered in partnership with key arts organisations – aiding their financial and operational viability.	Unknown
<b>Health and Care</b> We will lead the way in effective, integrated rural health and care	Re-modelling of arts services allows for reviewing strategic priorities with arts partners in commissioning process.	Neutral	Heighten focus on the contribution of the arts and culture in supporting effectiveness of rural health and care services – arts in health. Partnership working with Powys Teaching Health Board in developing Powys Creative Arts, Health and Wellbeing Strategy.	Good
<b>Learning and skills</b> We will strengthen learning and skills	Potentially weakened arts sector as a consequence of reduced public investment; less able to support learning and skills opportunities for staff, volunteers, freelance practitioners, participants, and audiences. Educational programmes, outreach, skills development, and training offers may be reduced. Arts event and participatory programming may respond to need for a greater commercial focus leading to less accessible, inclusive, and affordable content.	Poor	Explore new blended programming incorporating a digital offer. Research opportunities for partnership working with Schools Service, educational charities, and establishments. Maintain focus on learning & skills as a priority in arts service delivery and commissioning.	Unknown

Potential for less educational and employment opportunities locally in the creative industry sector, thereby weakening an already sparse cultural infrastructure. Potential migration of young people out of county seeking further education, work experience, apprenticeships, and employment in more culturally thriving urban centres. Reduction in the cultural tourism offer in Powys.	Poor	Maximise opportunities for securing additional external funding in support of arts service delivery in partnership with arts sector partners. --	----------------------------------	--

Throughout 2020 the Mobile Services Support teams have been extremely busy supporting housing and schools during the Covid-19 pandemic, this work continues in 2021. There has been significant additional work during the year providing additional income.

Proposal to deliver revenue savings from the Cleaning service for 2021-2023 by implementing the proposals below:

- Increasing income by expanding business opportunities: providing a handyman service for minor repairs and maintenance, communal garden clearance/maintenance for general public/housing service. Supporting schools with additional Covid cleaning staff and fogging (deep cleaning). This will either be work outside of the HOWPS contract or work subcontracted from HOWPS.
- Several internal services have requested reviews of current cleaning schedules to make efficiencies. Property services have asked to review cleaning in several corporate buildings to reduce their cleaning costs. Requests will be reviewed along with staffing.
- Introduce a service brand and use social media to expand communication to the residents and public we serve, with potential networking opportunities with greater income potential.

<b>Proposal</b>					
<b>Outline Summary / Description of Proposal</b>					
Development of community hubs with outreach housebound delivery model; service redesign and restructure to develop good quality information, literacy, and digital support across county.					
All changes are carefully planned to have minimal detrimental impact on service users and the general public, and to offer potential for improved outcomes through partnership working, collaboration and co-production. Proposals also take into account the statutory requirements of the Public Libraries and Museums Act 1964, administered in Wales through the Welsh Public Library Standards frameworks.

<p><b>Health and Care</b>  <b>We will lead the way in providing effective, integrated health and care in a rural environment</b></p>	<p>The library service is Dementia Friendly and offers literature in support of this to those living with Dementia and their carers- Libraries are part of the Book Prescription Wales schemes for adults and children, so residents would be unable to collect titles prescribed by health colleagues locally. The library service works closely with Powys Health Promotion unit to widely disseminate campaign information to libraries across the county (e.g., measles vaccinations, or stop smoking campaigns).</p> <p>Public libraries have enabled people to access online cognitive behaviour courses prescribed for them.</p> <p>Activities in branch libraries have a positive impact on health and wellbeing, e.g., rhythm and rhyme sessions for parents and babies encourages bonding as well as a social network for peer support. Dementia reading aloud sessions have proven benefit, and groups such as book groups, knit and natter and poetry groups offer mental stimulus and social interaction to boost overall wellbeing.</p> <p>These proposals are designed to improve access to health information, and protect the beneficial outcomes described above. <p><b>Learning and skills</b>  <b>We will strengthen learning and skills</b></p>	<p>The library service supports learners of all ages and abilities through provision of quality resources and help with accessing and using those resources, including independent study space, and providing a location for 1-1 tuition and courses. 76% of respondents in the adult library user survey said that the library has helped them to learn something new, and 48% said it helps them with education.</p> <p>“Access to Research” is an online service available through public library computers only, providing access to a huge UK collection of academic articles and papers (the terms of the agreement means that it is not available remotely via the library web pages). This is heavily used by researchers in Powys – usage statistics show that Powys was 5<sup>th</sup> in May and 3<sup>rd</sup> in June 2016, for usage, across the whole of the UK. <b>Long Term:</b> <i>Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.</i>	These proposals are designed to provide a sustainable long-term future for the library service and for service users, to protect beneficial outcomes for residents as described above, and highlighted through public consultation 2019.	Good	Potential for future development and enhancement through partnership working and development of community hubs – to be explored	Unknown
<b>Collaboration:</b> <i>Working with others in a collaborative way to find shared sustainable solutions.</i>	The library service already works with a wide range of partners, both internally and externally, and this helps to sustain beneficial outcomes. The library service operates in a co-production way. This will be developed further as part of the proposals. Volunteers and 3 <sup>rd</sup> sector agencies will be partners in development of the housebound outreach service.	Good	Potential for future development and enhancement through partnership working	Unknown
<b>Involvement (including Communication and Engagement):</b> <i>Involving a diversity of the population in the decisions that affect them including:</i> <b>Unpaid Carers:</b> <i>Ensuring that unpaid carers views are sought and taken into account</i>	Widespread public community consultation took place 2019 and is being followed up by further meetings with communities to drive forward their proposals, supported by the Portfolio Holder. There is constant engagement with partners, Friends groups, volunteers and other agencies, and a stronger communications plan will be developed as part of proposals and change initiatives. The proposals allow for enhanced involvement.	Good	Potential for future development and enhancement through partnership working and co-production.	Unknown
<b>Prevention:</b> <i>Understanding the root causes of issues to prevent them from occurring including:</i> <b>Safeguarding:</b> <i>Preventing and responding to abuse and neglect of children, young people and adults with health and social care needs who can't protect themselves.</i>	The public consistently highlight that public libraries already offer preventative medicine and save the authority and the health service money in that way. The service works with partners and on a “what matters” principle for service users. Library staff have extensive knowledge of their communities and service users and know how to pass on concerns re safeguarding following library service protocols. Proposals should not change this way of working.	Neutral	Potential for improvement through training for staff and volunteers, and development of community hub model.	Unknown

<p><b>The Economy</b>  <b>We will develop a vibrant economy</b></p>	<p>Powys Archives' visitors boost the local economy as they use local shops, eateries and accommodation.</p> <p>Visitor surveys show that 90% of Archive users come into the locality of Llandrindod Wells for the specific purpose of using the archives i.e. the Archives Service is their driver for visiting and 50% of users came from over 61km away.</p> <p>33% took overnight accommodation and 58% ate out locally, generating 376 hotel bed occupancies and 664 restaurant visits. These figures are all higher than for the total combined Welsh services.</p> <p>The Archive Service can also provide information resources to support business operations. Powys Archives has been used for all sorts of operations such as restoration and regeneration projects, planning new developments and identifying boundaries.</p>	<p>Neutral</p>		<p>Neutral</p>
<p><b>Health and Care</b>  <b>We will lead the way in effective, integrated rural health and care</b></p>	<p>Visits to Powys Archives improve the health and wellbeing of residents and research for recreational purposes boosts mental health, along with social interaction.</p> <p>Volunteering contributes to community wellbeing and improves the Archive Service in addition to enabling personal development and involvement with heritage.</p> <p>Access to arts and cultural services overall enhances wellbeing.</p>	<p>Neutral</p>		<p>Neutral</p>

<b>Learning and skills</b> <b>We will strengthen learning and skills</b>	<p>Archive Services have proved to be ‘safe’ places in which people can learn and develop. This learning experience can come about either as a user or a volunteer. Researching archives requires individuals to develop a whole range of skills from specialist areas such as palaeography (the study of old handwriting) through to the ability to analyse large amounts of information, set goals and organise workloads. Allied to this is access to a unique information resource. The Archives hold records that for the most part cannot be found elsewhere such as Council records, maps and plans, personal papers and business records. 98% of visitors to Powys Archives agree that archives provide opportunities for learning.</p> <p>For volunteers the payback can be significant in terms of skills and employability. In a report by the National Council on Archives into volunteering in archives 32% of those questioned felt archive volunteering had helped with their sense of being part of a workplace, 28% felt it had helped them learn or improve their IT or other work-related skills, and 16% felt it had improved their confidence to look for work.</p> <p>Archives have always been a vital resource of educational attainment. Archives are well known as the source material for high qualifications such as PhDs and MAs. But they have been widely used to bring a wide range of school subjects to life such as history, geography, English and maths, and provide the stimulus for projects as such as art and drama productions. For example, the National Curriculum for history includes local history research using archives.</p>	Neutral		Neutral

<b>Residents and Communities</b> We will support our residents and communities	<p>Powys Archives holds, cares for and continues to develop collections for the county which represent our rich and diverse culture. These in turn enrich the lives of people in our communities and help them live fulfilled lives.</p> <p>Powys Archives provides a place where one can be welcomed and feel part of the community. They are safe environments where people come together through mutual interest. In the report by the National Council on Archives into volunteering in archives its research found 48% of those questioned felt working as an archive volunteers had enabled them to meet new people or socialise and 31% felt it had helped with their sense of being part of a community. There is strong anecdotal evidence that regular users have a similar response.</p> <p>A good archive service contributes to the strength of the local community.</p>	Neutral		Neutral

<b>The Economy</b> <b>We will develop a vibrant economy</b>	The service supports the economy by enabling and encouraging participation, events, and opportunities for involvement with healthy physical activities linked to wider Powys initiatives and agendas. There is the potential for less events, competitions, and activities (local, regional & national) that bring people into Powys to participate, visit, travel around and stay if there is less budget available.	Poor	Collaborative working and communication with other organisations, partners and services is key to ensure a whole county approach.  Alternative methods of delivery such as virtual and online are being explored, developed, and delivered. This will continue and be enhanced over time.	Good
<b>Health and Care</b> <b>We will lead the way in providing effective, integrated health and care in a rural environment</b>	The service will support the health & care agenda through joint initiatives and schemes to encourage people to be more physically active, working towards mutual objectives and outcomes. The proposal could have an impact through reduced officer capacity or less resources.	Poor	Collaborative working and communication with other organisations, partners and services will enable a whole county approach. Understanding areas of need, gaps, individuals, and groups that may need specific intervention is key.  Alternative methods of delivery such as virtual and online are being explored, developed, and delivered. This will continue and be enhanced over time.	Good
<b>Learning and skills</b> <b>We will strengthen learning and skills</b>	The service will help to enhance learning and skills through schemes and opportunities to develop. However, the numbers of people developing their learning and skills, gaining qualifications, and undertaking training may decrease as a result of the savings required. Further impact could be a reduction in sports coaches, instructors, and professional persons to support healthy physical activity in Powys as a result of reduced funds.	Poor	Collaborative working and communication with other organisations, partners and services will enable understanding and identification of gaps and need.  Alternative methods of delivery such as virtual and online are being explored, developed, and delivered. This will continue and be enhanced over time.	Good

*The integrated approach to support effective decision making*

Although there may be a reduced core budget to the service over the next two years from Powys County Council, between the three funding streams (PCC, Sport Wales & Disability Sport Wales) there are sufficient budgets and funding available to provide and deliver an effective service. Due to the recent changes within the Council and Sport Wales, objectives and outcomes have been reconfigured which has enabled a different approach to be explored and proposed. Officers time and agreed programmes will need to be more streamlined based on identified needs and gaps which may mean that not all services and activities previously provided will be available. There is also the addition of increased and developing virtual / online offer which should engage a range of participants.

3. Consultation requirements

Consultation Requirement	Consultation deadline/or justification for no consultation
No consultation required (please provide justification)	The provision of the temporary Gypsy & Traveller site for the annual Royal Welsh Show is not a statutory requirement. The provision of the site was managed by a multidisciplinary/agency working group and therefore consultation already undertaken with Police, Royal Welsh Agricultural Society and Gypsy & Traveller Liaison. The non-provision of the site will be publicised on social media and communicated to the Gypsy and Traveller community. The site provision was cancelled due to the Covid-19 event in 2020. The impact of the pandemic on the 2021 RWAS is currently unknown.

<b>Proposal</b>	Review of Fleet Maintenance Service				
<b>Outline Summary / Description of Proposal</b>					
<p>In recognition of projected reducing fleet numbers (subject to other savings proposals) and the managed fleet renewal process, further efficiency can be gained from reduced maintenance and repairs.</p> <p>This review will need to compare in-house service options (1 or 2 workshops), combined in-house and external provision (1 workshop with external support for certain locations) and fully external provision (single or multiple supplier). In-house provision will require capital investment.</p> <p>In addition to and preceding the full review, efficiencies can be gained following the introduction of a changed working pattern in 2019/20, along with the benefits of reduced repairs associated with the successful progression of the fleet replacement programme. This will enable a reduction of labour resource required, starting from 2020/21 with an anticipated reduction of 2 fte posts.</p> <p>Commissioning - Soft market testing will be needed to gauge level of interest from external suppliers. This will help the service evaluate the various options available.</p> <p>At this point we cannot determine possible savings that may be available through this process, but it is considered that procurement/transfer or any capital investment in-house could be achieved for 2022/23.</p>

<b>Proposal</b>	Review & Efficiencies within School & Public Transport Provision				
<b>Outline Summary / Description of Proposal</b>					
<p>The existing budgets for both Public and School Transport are significant, circa £10.2m and £2.6m controllable budget respectively.</p> <p>Provision of school transport is a statutory requirement, whereas local authorities have a duty under the 1985 Transport Act to ‘<i>secure the provision of such public transport services as they consider appropriate to meet any public transport requirements which would not otherwise be met</i>’. In a sparse, rural county such as Powys the viability for commercial routes are few and therefore is a need for a subsidised services to meet the need and satisfy our duty.</p> <p>Public and School transport are interdependent with an integrated approach being applied to operate them efficiently. This interdependency therefore presents complications when considering statutory and non-statutory provisions. The other dependency for school transport is the School network and any present and future re-modelling of schools. Transport is a critical element that needs to be considered in determining the most appropriate school provision (numbers/locations). It is therefore imperative that when looking at the remodelling of the school network, that proper consideration is given to the £55k per day it currently costs to transport learners to school.</p> <p><b>The other interdependency that needs careful consideration, is the impact of any reduction in capacity or routes now, against taking forward proposals in the 21<sup>st</sup> Century Schools programme. For example, the likely additional costs to transporting more learners to potentially less schools.</b></p> <p>An indicative percentage saving has been applied crudely to both budgets based on improved efficiencies, set against existing and future budget pressures. As a result of a new funding regime via Welsh Government, this has allowed the Transport department to reprofile its budgets and meet the savings outlined below.</p>					
Proposed saving	2020/21	2021/22	2022/23	Total Saving	
3% reduction in schools transport spend		-£276,804		-£276,804	
10% reduction in net public transport budget		-£272,117		-£272,117

We spend around £55k per school day with local suppliers. To make a £500k reduction will require the daily spend to reduce by £2,700 per day which is around a 5% reduction. Care will be taken to spread the cost reduction equally across the supplier base.

9. What are the risks to service delivery or the council following implementation of this proposal?

Description of risks			
Risk Identified	Inherent Risk Rating Impact X Likelihood (See Risk Matrix in guidance document)	Mitigation	Residual Risk Rating Impact X Likelihood (See Risk Matrix in guidance document)
If 'hit' too hard some bus operators may go out of business		Where possible, spread the reduction in provision across the supplier base	

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
The outline assessment suggests that the negative impact of reducing capacity in the current provision is low, and that, overall, the impact is positive as we will still transport the same number of learners to school.	

11. Is there additional evidence to support the Impact Assessment (IA)?

What additional evidence and data has informed the development of your proposal?
N/A

12. On-going monitoring arrangements?

<b>What arrangements will be put in place to monitor the impact over time?</b>
If the reduction in capacity is achieved, the impact will be monitored annually, and if the provision needs changing due to changes in other policies or the law, then the policy and provision will need to be revised to take account of these changes.
<b>Please state when this Impact Assessment will be reviewed.</b>

<b>Proposal</b>	Four Weekly Residual Collections				
<b>Outline Summary / Description of Proposal</b>					
To move to a four weekly refuse collection service whilst sustaining a weekly recycling service. By reducing the quantity of waste for disposal and increasing the amount recycled from the kerbside, the change will make a modest contribution to savings, but should make a significant contribution to the council meeting strict WG recycling targets and thus avoiding fines.

<b>Sustainable Development Principle (5 ways of working)</b>				
<b>Long Term:</b> <i>Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.</i>	There is an immediate pressure to make savings, however in the longer term there is a need to increase recycling to achieve WG targets and minimise risk of fines. Reducing the frequency of residual waste collections will contribute to this aim.	Good	If residents use the service correctly, maximising recycling and securely bagging any potentially problematic waste, reducing the frequency of residual collections will not pose any serious problems. Where residents genuinely require additional capacity, such as a medical issue or larger families with children in nappies, this can be considered. Awareness Advisors are available to assist residents with any problems that they may have. There is also an assisted collection scheme for residents who struggle with the existing arrangements.	Good
<b>Collaboration:</b> <i>Working with others in a collaborative way to find shared sustainable solutions.</i>	The move to four weekly collections is one of several methods of achieving the WG statutory targets. We will be working with our third party suppliers to maximise the effectiveness of Household Waste Recycling Centres and income from recycle.	Good	Maintaining proactive dialogue with third party providers on any changes to service to ensure consistent delivery.	Good

<b>Proposal</b>	Reduction in Highways Maintenance				
<b>Outline Summary / Description of Proposal</b>					
To reduce highways maintenance to the lowermost level, bringing a reduction in staffing and rationalising the number of highway depots to 7no.; to reduce budgets whilst minimising risk, budgets will need to be re-prioritised.					
<i>*NB - Savings from depot closure (&amp; temporary costs of relocation) have not been included in the savings calculations</i>					
The proposed reduction in highway maintenance will be in areas considered a lower risk such as rural and urban sweeping, traffic signs and storm & flood. The verge maintenance budget has been frozen, to account for forecast pressures such as Ash Die Back (which will require significant funding over medium term). Budgets have been re-prioritised to focus funding on the most fundamental service. There will be even more reliance on capital funding to deliver a reasonable level of essential works to fulfil statutory duty.					
Total operational staff working on County Highway maintenance will reduce to <b>47 staff</b> .

<b>Proposal</b>	Transfer of Public Conveniences				
<b>Outline Summary / Description of Proposal</b>					
<p>To transfer the operation of the two remaining public conveniences (Brecon &amp; Ystradgynlais Bus stations) to Town or Community Councils or local interest groups or where no transfer can be completed to close the facilities. The aim is to ensure a sustainable future for the provision of public conveniences across Powys which takes into account the efficiencies identified for the service in the Medium Term Financial Plan. Transfer of the two public conveniences will save £43k.</p> <p>Previous transfers of public conveniences were accompanied with a transition payment over several years to ease the initial financial burden for the new operator while they seek alternative support and to make the transfer a more attractive proposal. There is a budget amount identified to enable for this transition period and meet the £43k saving. An additional saving (£24K) can be realised by not providing for transition payments; however this does increase the risk of assets not being transferred and increases the likelihood of closure.</p> <p>Failure to transfer the assets will result in closure and they will be declared surplus to requirements for disposal. Failure to dispose of the asset will require budget to make safe / demolish asset.</p>

<b>Proposal</b>	Countryside access savings, 2021-24						
<b>Outline Summary / Description of Proposal</b>							
<p>Countryside access has a required savings target of 30% over the period from 2020-2024. The service delivers the following activities, which are statutory with some associated discretionary powers:</p> <ul style="list-style-type: none"> <li>- Maintenance and enforcement on public rights of way;</li> <li>- Maintenance, enforcement, national co-ordination and promotion of two National Trails (Offa’s Dyke and Glyndwr’s Way National Trails)</li> <li>- Access provision and enforcement on open access land;</li> <li>- Maintaining and updating the legal records of public rights of way (Definitive Map), common land and town or village greens (Commons Register) and processing of legal applications associated with these records;</li> <li>- Provision of advice to the public, including property searches;</li> <li>- Biodiversity duties.</li> </ul> <p>The majority of the saving of £210,000 was made from core Countryside access budgets in 2020-21, through a restructure of the team; four posts were lost. The remaining £20,000 will need to be achieved in 2021-22. It is not anticipated that any further posts will be lost; the saving will be achieved from core budgets for materials and contractors and reductions in travel costs.</p>

#### 4. Impact on Other Service Areas

Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?) PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY
<p><b>Corporate Health and Safety and Insurance teams</b> – Increased risk of the team being unable to meet health and safety responsibilities in a timely way e.g. collapsing footbridges, leading to increased risk of injury and associated claims;</p> <p><b>Legal Services</b> – Increased public dissatisfaction due to reduced capacity to resolve issues on public rights of way, leading to a greater number of informal and formal legal challenges and complaints. At the current time, less than 40% of the public rights of way network is assessed as being ‘open and easy to use’ and this is expected to fall with reduced resources.</p> <p><b>Social Services and Powys Teaching Health Board</b> - The service will be less able to assist in meeting the priorities of other Council services and Powys Teaching Health Board services. Access to public rights of way and open space, and involvement in volunteer activities to maintain them make an important contribution to preventive healthcare, by improving mental and physical wellbeing and physical activity levels. If a greater proportion of public paths are not open and easy to use, the potential to contribute to this will be significantly reduced.</p> <p><b>Regeneration / Tourism</b> - The tourism potential associated with public rights of way in Powys will be reduced, if less budget is available to ensure that paths are open and easy to use.</p> <p><b>Finance</b> - The team’s capacity to generate income on a cost-recovery basis e.g. through processing public path Orders will be reduced, with less staff capacity.</p> <p><b>Data protection</b> – Increased risk of errors and information breaches occurring, due to individual staff being required to address higher volumes of casework and being under pressure to complete tasks too quickly.</p>

5. How does your proposal impact on the council's strategic vision?

Council Priority	How does the proposal impact on this priority?	<b>IMPACT</b> Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	<b>IMPACT AFTER MITIGATION</b> Please select from drop down box below
<b>The Economy</b> <b>We will develop a vibrant economy</b>	The tourism potential associated with public rights of way in Powys will be reduced, if capital and grant funding is not available to support work to ensure that paths are open and easy to use. Tourism associated with outdoor recreational activities forms a significant contribution to the economy of Powys and particularly so following COVID 19. Without grant or capital funding, the service will be unable to employ local contractors to carry out work on public rights of way.	Very Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
<b>Health and Care</b> <b>We will lead the way in effective, integrated rural health and care</b>	Without grant or capital funding, less public paths will be 'open and easy to use' which will impact on access to greenspace and outdoor recreation. This will have a particularly significant effect during COVID 19 restrictions when there are limited options for exercise for mental and physical wellbeing.	Very Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
<b>Learning and skills</b> <b>We will strengthen learning and skills</b>	Outdoor recreation and access to open space contributes to lifelong learning through play for children and adults. Volunteering can assist in skills development to support those seeking work. There will be reduced budget and staff capacity to support these activities and maintain paths in an open and easy to use condition, which will have an adverse effect these opportunities.	Very Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
<b>Residents and Communities</b> <b>We will support our residents and communities</b>	Reliance on volunteer support and engagement will increase, as budget to support use of contractors decreases. This will increase community involvement, but core funding is likely to be insufficient to allow for community aspirations to be met.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding.	Neutral

6. How does your proposal impact on the Welsh Government’s well-being goals?

<b>Well-being Goal</b>	<b>How does proposal contribute to this goal?</b>	<b>IMPACT</b> Please select from drop down box below	<b>What will be done to better contribute to positive or mitigate any negative impacts?</b>	<b>IMPACT AFTER MITIGATION</b> Please select from drop down box below
<p><b>A prosperous Wales:</b>                      An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.</p>	<p>The proposal will have a negative impact on this goal. Tourism forms a major contribution to the economy of Powys and the natural environment is one of the county’s biggest assets. Reduced budgets to maintain public paths in a condition that is open and easy to use will impact adversely on achieving the potential of the rights of way network and access land for tourism. Without capital and grant funding, the service will be unable to employ local contractors to carry out work on public rights of way.</p>	<p>Very Poor</p>	<p>Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.</p>	<p>Poor</p>
<p><b>A resilient Wales:</b>                      A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).</p>	<p>The proposal will have a negative impact on this goal. One of the team’s statutory duties is in respect of biodiversity; without grant funding, the team will have very little staff capacity to contribute to meeting biodiversity duties.</p>	<p>Poor</p>	<p>A part time staff member will be employed on a fixed term contract for from January 2021 to March 2022, using Welsh Government ENRaW grant funding through the all Wales Biodiversity project. The impact after that is unknown.</p>	<p>Neutral</p>

<p><b>A healthier Wales:</b> A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.</p> <p><b>Public Health (Wales) Act, 2017:</b> Part 6 of the Act requires for public bodies to undertake a health impact assessment to assess the likely effect of a proposed action or decision on the physical or mental health of the people of Wales.</p>	<p>There will be an adverse impact on this goal. Outdoor recreation makes a significant contribution to mental and physical wellbeing and physical activity levels. The need for this is high given the impacts of COVID 19. Reduced core funding will adversely impact on the number of public paths that are open and easy to use, which will adversely impact on the opportunities for outdoor recreation and access to greenspace.</p>	<p>Very Poor</p>	<p>Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.</p>	<p>Poor</p>
<p><b>A Wales of cohesive communities:</b> Attractive, viable, safe and well-connected Communities.</p>	<p>Without capital funds, the service will be less able to respond to health and safety hazards on public paths e.g. collapsing bridges or unsafe surfaces. Path condition is likely to deteriorate with reduced budgets, which will have an adverse impact on the attractiveness of paths for communities and the potential for tourism, reducing community viability</p>	<p>Very Poor</p>	<p>Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.</p>	<p>Poor</p>
<p><b>A globally responsible Wales:</b> A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.</p> <p><b>Human Rights - is about being proactive (see guidance)</b></p> <p><b>UN Convention on the Rights of the Child:</b> The Convention gives rights to everyone under the age of 18, which include the right to be treated fairly and to be protected from discrimination; that organisations act for the best interest of the child; the right to life, survival and development; and the right to be heard.</p>	<p>There will be an adverse impact on this goal. Public rights of way and open space form an important part of low carbon travel and tourism; many paths in or close to settlements already are, or could form valuable parts of the Active Travel network. Without capital or grant funding, that potential will be adversely impacted.</p>	<p>Poor</p>	<p>Work with the Council's Travel officer and other organisations including the Brecon Beacons National Park Authority to seek Active Travel and related travel / transport funding to carry out improvement work on routes with potential for active travel.</p>	<p>Neutral</p>

## Impact Assessment (IA)

*The integrated approach to support effective decision making*

8. What is the impact of this proposal on our communities?

Severity of Impact on Communities	Scale of impact	Overall Impact
Medium	High	Medium
Mitigation		
Working with communities and volunteer groups to agree community aspirations and priorities for the public rights of way network, then seeking grants or external funding to work with them to achieve those priorities. Involvement of community volunteer groups to carry out light maintenance of paths once reopened e.g. seasonal vegetation clearance to ensure long term sustainability.		

9. How likely are you to successfully implement the proposed change?

Impact on Service / Council	Risk to delivery of the proposal	Inherent Risk	
Medium	High	Medium	
Mitigation			
Good communication with stakeholders and staff is essential to achieving the savings. Staff need to be fully informed and able to contribute constructively to the process. Stakeholders need to be able to make constructive suggestions as to how they can be involved e.g. in collaborative grant funded projects to avoid frustration leading to legal challenges.			
Risk Identified	Inherent Risk Rating	Mitigation	Residual Risk Rating
Deterioration in condition of public rights of way network will result in legal challenges from members of the public, with cost outweighing savings achieved	Very High	Seek grants and external funding to mitigate against impact, although can only be used for non-statutory improvements. Good communication and regular liaison with stakeholders.	High
Lack of availability of community volunteers to support work, leading to paths not being maintained in long term. This may lead to dissatisfaction and legal challenges	High	Setting realistic goals with volunteer groups that allow for fluctuations in volunteering over time. Review and monitor as time progresses to assess whether risk has increased.	Medium
Inability to address high health and safety risks due to reduced staff and budget, leading to serious accidents and injury claims that may outweigh savings achieved.	High	Allocate highest priority for staff time to addressing these risks. Apply for capital funds if appropriate or remove hazard.	Medium
Reduced staff capacity to seek external grant funding, to mitigate against the impacts of reduced core budget.	High	Work with Council's regeneration team and allocate staff time as a priority to seeking funding, although will impact on other work.	Medium
The team's capacity to generate income on a cost-recovery basis will be reduced, with less staff capacity. This will reduce ability to mitigate against core budget reductions.	High	Seek alternative ways of working to reduce staff input to chargeable activities, to release their time for core statutory work.	Medium

<p>The Brecon Beacons National Park Authority may choose to terminate the service level agreement if reductions are made. All legal responsibility for maintenance of public rights of way in the National Park within Powys would revert to Powys County Council. The team would be unable to meet high level of expectation that has become established in the National Park, being a tourism asset to the county, so the risk of challenge and reputational damage is high and may outweigh the savings delivered.</p>	<p>High</p>	<p>Work with the National Park Authority on collaborative projects to seek alternative funding sources.</p>	<p>Medium</p>

### 10. Overall Summary and Judgement of this Impact Assessment?

<p><b>Outline Assessment (to be inserted in cabinet report)</b></p>	<p><b>Cabinet Report Reference:</b></p>
<p>The proposals will have a high adverse impact, both for staff and for the public. Unless grant or capital funds can be secured, the proposals will result in significant deterioration of the public rights of way network, presenting an increased risk of injury claims and legal challenges. The proposals will significantly reduce the potential for physical activity and outdoor tourism in the county, with impacts on the economy and on physical and mental wellbeing. Mitigation is entirely dependent on the availability and goodwill of community volunteers and availability of grants or external funding, so it must be recognised that mitigation may not be successful and that other risks will be realised as a result.</p>	

### 11. Is there additional evidence to support the Impact Assessment (IA)?

<p><b>What additional evidence and data has informed the development of your proposal?</b></p>
<p>Recent successful legal challenges against the Council in relation to lack of maintenance on byways; the legal action itself was very expensive and has resulted in maintenance costs from capital budgets that outweigh the savings proposed. Positive impact of 2020-21 Welsh Government grant funding, but it has been difficult to maximise the opportunities that this presents due to increased staff workloads following restructure.</p>

### 12. On-going monitoring arrangements?

<p><b>What arrangements will be put in place to monitor the impact over time?</b></p>
<p>Quarterly reporting against the Service Improvement Plan will indicate the length of the public rights of way network that has received maintenance or improvement work. Risks will be highlighted as they arise, through weekly team meetings and also via quarterly reporting against the Corporate Improvement Plan.</p>
<p><b>Please state when this Impact Assessment will be reviewed.</b></p>

## Impact Assessment (IA)

The integrated approach to support effective decision making

**Please read the accompanying guidance before completing the form.**

This **Impact Assessment (IA)** toolkit, incorporates a range of legislative requirements that support effective decision making and ensure compliance with all relevant legislation. **Draft versions of the assessment should be watermarked as "Draft" and retained for completeness. However, only the final version will be made publicly available. Draft versions may be provided to regulators if appropriate. In line with Council policy IAs should be retained for 7 years.**

<b>Service Area</b>	Countryside Access and Recreation	<b>Head of Service</b>	Matt Perry	<b>Director</b>	Nigel Brinn	<b>Portfolio Holder</b>	Cllr Rachel Powell
<b>Proposal</b>	Outdoor Recreation savings, 2021-2024						
<b>Outline Summary / Description of Proposal</b>							
Outdoor Recreation has a required savings target of £76,000 over the period from 2021-24. The service delivers the following activities, which are statutory due to the health and safety implications:							
<ul style="list-style-type: none"> <li>- Provision, inspection and maintenance of play equipment, on Council owned land and inspection of equipment on land owned by others;</li> <li>- Tree management on Council owned land;</li> <li>- Management and maintenance of Outdoor Recreation buildings and land including sports pitches and pavilions and associated grass cutting.</li> </ul>							
The proposal is that a saving of £76,000 be made over the next 2 years, as follows; £40,000 in 2021-22 and £36,000 in 2022-23. In 2021-22 these savings can be achieved through reductions in third party spend; in 2022-23, the remaining savings will need to be achieved through reductions in staffing and third party spend. These savings take into account a budget pressure that has been put forward in relation to ash dieback.

### 4. Impact on Other Service Areas

Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?) PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY
<p><b>Corporate Health and Safety and Insurance teams</b> – Increased risk of the team being unable to meet health and safety responsibilities in a timely way in relation to hazardous trees, buildings and play equipment, leading to increased risk of injury and associated claims;</p> <p><b>Legal Services</b> – Increased public dissatisfaction due to reduced quality and availability of play provision, reduced grass cutting, removal of trees or loss of access to areas of open space due to hazards and reduction in attractiveness of area, leading to a greater number of informal and formal legal challenges and complaints.</p> <p><b>Social Services and Powys Teaching Health Board</b> - The service will be less able to assist in meeting the priorities of other Council services and Powys Teaching Health Board services. Access to parks and open spaces, and involvement in volunteer activities to maintain them make an important contribution to preventive healthcare, by improving mental and physical wellbeing and physical activity levels. If there is a reduced availability and quality of greenspace in the county, the potential to contribute to this will be significantly reduced.</p> <p><b>Regeneration / Tourism</b> - The tourism potential associated with high quality parks and open spaces in Powys will be reduced, if less budget is available to maintain them.</p> <p><b>Education and Sports Development</b> – Play forms an important part of lifelong learning and encouraging physical activity, for children and adults. Sports pitches provide important opportunities for physical activity. Reduced access or levels of maintenance on sports pitches, play areas and greenspace will have an adverse impact on learning opportunities and physical activity levels.</p> <p><b>Finance</b> - The team’s capacity to generate income on a cost-recovery basis e.g. through drone surveys will be reduced, with less staff capacity.</p>

5. How does your proposal impact on the council's strategic vision?

<b>Council Priority</b>	<b>How does the proposal impact on this priority?</b>	<b>IMPACT</b> Please select from drop down box below	<b>What will be done to better contribute to positive or mitigate any negative impacts?</b>	<b>IMPACT AFTER MITIGATION</b> Please select from drop down box below
<b>The Economy</b> <b>We will develop a vibrant economy</b>	The proposals will have an adverse effect on the local economy, as the service employs local contractors to carry out work on trees and play equipment. Reductions in core funding will result in the service being able to employ local contractors less often.	Very Poor	Seek section 106, grant or capital funding where available for managing greenspace, play equipment and maintenance of buildings. Transfer remaining assets to communities where possible to ensure ongoing sustainability.	Poor
<b>Health and Care</b> <b>We will lead the way in effective, integrated rural health and care</b>	Access to parks, open spaces, play areas and sports facilities is important in increasing physical activity levels and in promoting physical and mental wellbeing. This has been particularly notable during COVID 19. The proposals would adversely impact on these opportunities for preventive healthcare.	Very Poor	Seek section 106, grant or capital funding where available for managing greenspace, play equipment and maintenance of buildings. Transfer remaining assets to communities where possible to ensure ongoing sustainability and work with volunteers where appropriate for maintenance of greenspace.	Poor
<b>Learning and skills</b> <b>We will strengthen learning and skills</b>	Play forms an important part of lifelong learning, for children and adults. The proposals would adversely impact on these opportunities and therefore on learning.	Very Poor	Seek section 106, grant or capital funding where available for managing greenspace, play equipment and maintenance of buildings. Transfer remaining assets to communities where possible to ensure ongoing sustainability and work with volunteers where appropriate for maintenance of greenspace.	Poor
<b>Residents and Communities</b> <b>We will support our residents and communities</b>	Parks, open spaces and play areas are a focus of community activity for play, social and sporting events. The proposals would adversely impact on this.	Very Poor	Seek section 106, grant or capital funding where available for managing greenspace, play equipment and maintenance of buildings. Transfer remaining assets to communities where possible to ensure ongoing sustainability and work with volunteers where appropriate for maintenance of greenspace.	Poor

There will be insufficient budget available to effectively manage trees on Council owned land; this may result in trees becoming hazardous to members of the public. The Council may then be liable for serious injuries, if pro-active surveys and work are not carried out. The cost of injury claims may outweigh the savings delivered.	Very High	Seek section 106 or grant funding where available for managing greenspace. Transfer remaining assets to communities where possible to ensure ongoing sustainability. If no other option, remove hazardous trees altogether and do not replace them.	High
A legal challenge is possible, if play provision is not adequate or deemed to be unequal across the county. The cost of a challenge may outweigh the savings delivered.	High	Work with Council's Housing service to maintain high quality play areas in areas owned by Housing.	Medium
Injury claims due to hazards on Council grounds or outdoor recreation buildings are more likely if the budget to carry out pro-active inspections and work is reduced.	Very High	Seek section 106, grant or capital funding where available for managing sports pitches and maintenance of buildings. Transfer remaining assets to communities where possible to ensure ongoing sustainability. If no other option, close facility.	High
Staffing reductions will result in significantly reduced capacity to generate income through inspections of trees and play areas for other organisations e.g. community councils and through Drone surveys. This will reduce the ability to mitigate against reduced core budgets. ### 10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
<p>The proposals will have an adverse impact on the opportunities for sports, play and outdoor recreation in the county. This will reduce the attractiveness and viability of communities and adversely impact on opportunities for residents to take part in low cost physical activity, to improve physical and mental wellbeing. Reductions in budgets for maintaining trees, buildings and sports pitches are associated with a high health and safety risk; buildings, play areas and trees, in particular, require pro-active survey and management by a specialist, so opportunities to deliver this in another way are extremely limited. The cost of a single injury claim could outweigh the savings delivered; for sites that are not owned by Housing Services, mitigation is entirely dependent on the availability of external funding and willingness of the community to take on these liabilities, so mitigation may not be achieved. For sites owned by Housing Services, mitigation is dependent on the ongoing availability of budget and external grant funding; there is some risk that this mitigation may not continue to be achieved.</p>

11. Is there additional evidence to support the Impact Assessment (IA)?

**What additional evidence and data has informed the development of your proposal?**

- Tree surveys to assess the extent of ash dieback indicating that significant numbers of trees in the county are affected
- Knowledge and experience of staff involved in day-to-day running of the service for information about costs required e.g. for tree work and inherent risks.

12. On-going monitoring arrangements?

**What arrangements will be put in place to monitor the impact over time?**

Monitoring of play provision will be achieved through future play sufficiency assessments. Risks will be highlighted as they arise, through weekly team meetings and also via quarterly reporting against the Corporate Improvement Plan.

<b>Proposal</b>	Reduce closed landfill budget by £42k				
<b>Outline Summary / Description of Proposal</b>					
<p>Environmental Protection is responsible for managing the Council’s closed landfills. This involves ensuring that the sites are operating correctly, complying with relevant legislation and do not cause pollution to the environment.</p> <p>Since taking over responsibility for the sites from Waste Management in 2013, the service area has implemented a range of efficiencies which include reducing maintenance visits by HGSS and undertaking gas and leachate monitoring in house.</p> <p>The proposal is to stop paying £40K into a specific Closed Landfill reserve so that the service has fund to call upon in an emergency and to instead rely on the general reserve if emergency funding was ever required. The remaining £2K will be secure from the Closed Landfill revenue account, which is now available because of efficiencies previously implemented.</p>

<b>Service Area</b>	Transformation and Communications	<b>Head of Service</b>	Emma Palmer	<b>Portfolio Holder</b>	Cllr Graham Breeze
<b>Proposal</b>	To consolidate and strengthen the roles within the Strategic Planning, Policy and Performance Team and deliver a new operating model with Communications and Translation providing a cost reduction to overall bottom line.				
<b>Outline Summary / Description of Proposal</b>					

The Transformation and Communications Team shares the financial challenges faces by Powys County Council and the proposal aims to manage this in a measured way. There are two areas identified for making savings: 1) Strategic Planning, Policy and Performance and 2) Communications and Welsh Translation.

Reasons identified below:

1)

During 2019-20, the council has adopted a new quarterly performance reporting system, which uses sharepoint to record data and power BI to generate automated reports. This has reduced the need for manual production of key performance statistics and analysis. Automation of the council's Integrated Business Planning also started during summer 2020, which will allow services to take greater ownership of inputting and updating their own objectives, measures and targets, which will automatically update the quarterly reporting information

The continued evolution of the team creates opportunities for strengthening and aligning roles to ensure that the team are fully equipped to provide a more holistic support service. It is being proposed, that rather than having separate Strategic Planning and Risk officers, and Performance Improvement Officers, that this role should be combined to provide a more end to end support for services, and to provide a more streamlined process.

Strategic Planning and Performance Management go hand in hand, and therefore it makes sense that the roles are combined and that the team structures itself in such a way, so as to have enough capacity to support the strategic planning and corporate performance reporting of the Council's 5 Outcomes/Well-being Objectives. The proposed restructure will ensure that the council is able to operate effectively and remain compliant with the policy demands of Welsh and UK Governments.

### **The Potential Benefits**

On developing this proposal, the council has attempted to preserve and strengthen the knowledge and capacity within the unit. The following summarises the benefits of the proposed approach. The list is by no means exhaustive:

- Transformation and Communication shares the financial challenge faced by Powys County Council in a measured way
- The cost reductions are proportionate and reflect the changing demands of the business
- The knowledge base across the team is strengthened
- Elements of the service retain the potential for commercialisation.

2)

The aim of the revised structure is to better align the council's communication resources with the council's priorities as identified in Vision 2025 and generate potential savings.

We will ensure the reputation of the council is protected and enhanced by proactively providing positive professional communication, engagement and Welsh Language information in support of the council's Vision 2025 and transformational projects.

It is envisaged that the savings will be found through a combination of continued use of service specific and external grant funding, increased income and staff reduction (vacant posts).

The new structure (in relation to Communications and Engagement roles) aims to achieve clear alignment and support to corporate priorities, a greater focus on outcome-based budgets while generating overall budget savings through key changes:

- Introduction of a new operating model, clearly defining areas of responsibility for the Communications Team and services funded from the council's base budget
- Establish a flexible set of core communications skills that all Communications Team staff will be expected to perform in their roles
- Retain service specific and external grant support with the introduction of agreed service level agreements
- Increase external funding through introduction of service level agreements.

#### **The Possible Dis-Benefits of both proposals**

Several dis-benefits can be identified because of this proposed re-structure. Again, the list is not exhaustive:

- There will be fewer people working within the team because of the restructure
- The capacity for strategic planning, policy and performance and Welsh Translation is reduced
- The capacity to work with services on how they use performance data would be limited and may become an issue for the council
- The turn around time for Welsh Translation may be greater than experienced currently.

<b>Proposal</b>	WD02 - Savings from Leadership Development budget (£10,000), WD03 - Increase the uptake of leadership apprenticeships within the council to recoup the majority of the apprenticeship levy						
<b>Outline Summary / Description of Proposal</b>							
This document considers the impacts of the savings generated by Organisation Design and Development team (Workforce and OD Service) in the financial year 2021/22. Moving forwards we will be able to deliver a large part of our leadership and management development through apprenticeship programmes funded from the apprenticeship levy we pay to Welsh Government. This will significantly reduce the cost to delivering our leadership training programme.

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
A budget reduction of £240,000 will impact on children/young people and their families currently accessing services or forecast to require a 52 week long-term residential placement or short breaks provision at Golwg y Bannau/Camlas. The level of impact is not yet known and is dependent on the outcome of the Options Appraisal.	

11. Is there additional evidence to support the Impact Assessment (IA)?

What additional evidence and data has informed the development of your proposal?
A multi-Agency Project Team was established on the future use of Golwg y Bannau and Camlas. Commissioning activity included previous and current activity at Golwg y Bannau and Camlas, needs and cost analysis of Integrated Disability Services including forecast residential placement and short-break provision requirements, exploration of five potential options and options comparison, including pros, cons, costing and risks. A scoring matrix will be completed by Children's Leadership team and preferred recommendation agreed.

12. On-going monitoring arrangements?

<b>What arrangements will be put in place to monitor the impact over time?</b>
The initial impact of the savings will be monitored via Bannau/Camlas Multi-Agency Project as part of project delivery. Following completion of the project, the impact on children/young people and their families will be monitored via Bannau/Camlas Management Team, IDS Team and CLT.
<b>Please state when this Impact Assessment will be reviewed.</b>
This impact assessment will be reviewed, revised and completed following agreement of preferred option for future use of Golwg y Bannau and Camlas when impact of savings and decision is known.
