	<b>Rent Arrears</b> The low level of rent arrears demonstrates that Powys rental charges are reasonable – for example, very few tenants are referred for eviction. Rent collected 2021-2022 Q1 to Q3 equates to 96.50% of all income due. <b>Service Charges</b> Service charges are recovered based on actual costs incurred in the last
	full year preceding 2022-2023.
Q7: Please outline the tenant involvement (engagement, consultation and feedback) undertaken and how feedback received has influenced	<b>STAR Survey Outcomes for 2021</b> Tenants were generally positive about rent and service charges providing value for money (78% and 77% satisfied respectively), and almost three quarters (74%) were satisfied with the overall quality of their home. <b>Tenant Scrutiny Panel Meeting 14.01.22</b>
your rent setting policy for the 2022/23 rent year.	A report on proposed rents for 2022-2023 was considered on 14.01.22 by the Powys Tenant Scrutiny Panel (TSP). The panel includes both tenant representatives and councillors.
	Concerns were expressed that with reported increases in living costs and increases in April of both National Insurance and Council Tax increases, tenants will be struggling with having a rent increase of 3.1%.
	The proposal to increase rents by the maximum amount allowed was discussed, with the TSP requesting clarification as to why this was being proposed. It was acknowledged that getting the balance between keeping rents affordable and being able to invest in current and new homes was challenging, with 4,000 households registered with 'Homes in Powys' for affordable and the 200 households in temporary accommodation, awaiting availability of more permanent accommodation.
	Tenant Feedback to Officers
	The Council's Senior Income Officer collates feedback received by officers from tenants about current rents. Main points stated were: Powys County Council rent is seen as significantly cheaper than all other providers.
	<ul> <li>Tenants felt Powys County Council rents were extremely good value for money as they see them as not just being for the properties themselves but also for the services they receive from Housing Services and the security being a Powys County Council tenant brings in comparison to other landlords, particularly the private rented sector.</li> <li>There has been negative feedback regarding rent affordability when put in the context of the current financial climate. Although</li> </ul>
	the annual rent increase is very rarely mentioned in itself, the common concerns expressed were annual council tax increases, struggles with cost of living and the price of utilities increasing.

Q8: Please state the date your Board/Council/ Committee made or ratified the final	08.02.2022
decision on your rent	
setting for 2022/23	
Q9: Please explain how your annual assessment on operating costs and cost efficiencies has impacted on your rent setting decision for April 2022/23	In 2021-2022, the Council undertook a detailed assessment of how repairs and maintenance services are provided for its tenants. This work included a detailed examination of the processes involved from service request to completion of repair. The process was found to be cumbersome and inefficient. All options for the future delivery of these services were assessed, with the recommendation to undertake direct provision of repairs and maintenance to municipal housing being adopted by the Council in summer 2021. The current contract with Heart of Wales Property Services will end in July 2022, with service thereafter being provided directly by Housing Services. The directly provided service will include, for example, more pre-inspections of repairs to improve diagnosis of problems, pre-empt future service requests and make sure that right first time, every time ethos applies wherever practicable to avoid repeat visits and focus on prevention rather than cure.
	In 2020-2021, the Council reviewed the structure of Housing Services, in response to changing service demands. In 2021-2022, a revised structure has been developed to allow more flexible deployment of resources across the whole service, increasing efficiency by, for example, introducing locally focused mini-teams to take ownership of all asset management works for patches of homes and make sure that responsive, cyclical and improvement works are better co-ordinated. The new structure is to be introduced in March 2022.
Q10: Please provide any other comments or raise an issue in relation to your rent setting exercise for April 2022/23	There are as of January 10 <sup>th</sup> , 2022, 4,073 people registered with 'Homes in Powys' for secure, affordable housing, an increase from the December 2020 figure of 3,326. Maintaining and increasing the rate of development for new Council-owned homes is a major priority for the Council to meet this demand. Communities will benefit socially and economically by increasing the number of people who can enjoy secure, affordable accommodation – including current tenants who need to move and their families and friends who are no yet council tenants. The rent increase for Powys 2022-2023 will help support the expansion of our development programme to increase the availability of good homes for people living in our county.
PART TWO – Voluntary

,	

individual household's housing and support needs, in line with current homelessness legislation, including the provision of temporary accommodation where needed while ongoing work is done to secure settled, alternative accommodation.         b) Undertake a standardised tenant satisfaction survey         Q13: Confirm that you will complete a tenant satisfaction survey completed December 2021. The results show an increase in satisfaction survey, including the core questions, for submission by 28th February 2022         Overall Satisfaction - Key Survey Measures         % very/fairly satisfied (2019 vs. 2021)         Overall Satisfaction with services produce         00:0000000000000000000000000000000000	Q11: Please confirm that you are strengthening your approaches designed to ensure you minimise all evictions and deliver on a new agreement not to evict into homelessness Q12: If you would like to provide further details please do so here:	Ongoing focus is continuing to minimise the threat of eviction through regular contact with tenants, maximising rent payment options and regular referrals by our Housing Officers, who are tasked with arrears case management, to our 'in-house' Tenancy support Team to provide tailored financial support which has contributed significantly to ongoing tenancy sustainability. To minimise potential evictions into homelessness, in the exceptional cases where possession proceedings are needed for ongoing breaches of tenancy conditions, our Housing Officers work alongside our Housing Options Officers. This is to ensure a timely consideration of the			
accommodation where needed while ongoing work is done to secure settled, alternative accommodation.         b) Undertake a standardised tenant satisfaction survey         Q13: Confirm that you will complete a tenant satisfaction with services when compared to the last such survey in 2019.         STAR survey completed December 2021.
